Join leaders from Peace Boat, Blue Planet Alliance & Sustainable Ocean Alliance Caribbean for a discussion in the SDG Media Zone on creating a renewable energy future. The reduction of carbon emissions is key to protecting the health of our ocean. Speakers will engage in thoughtful discussion and presentations regarding ocean sustainability and how to achieve a zero-carbon future.

Yoshioka Tatsuya is the Founder and Director of Peace Boat, a Japan-based international NGO working to promote peace, human rights, and sustainability which organizes global educational voyages for peace and sustainability. Peace Boat is spearheading Ecoship which was the first Voluntary Commitment to SDG14. Ecoship will feature a sustainable passenger ship that will reduce carbon emissions by more than 40%, using retractable wind sails and solar power.

Henk Rogers is the founder of Blue Planet Alliance, an organization working to convert islands and countries to 100% renewable energy. Rogers will communicate strategic plans regarding Sustainable Development Goal #7: Affordable and Clean Energy.

Khadija Stewart is a Regional Representative for the Caribbean in the Sustainable Ocean Alliance and a Peace Boat Ocean and Climate Youth Ambassador. Stewart will be a great advocate for the threats that are faced by Small Island Developing States.
