

Blake Corsaut

During my gap year, I decided to focus on working in order to build up some savings and full-time job experience. I also used this time to write some projects and work on several production projects. Due to COVID-19, this seemed like the best decision to make sense as the world was adjusting to the pandemic. Since my time at SCAD, I have worked in a variety of crew and cast roles.

June 2020-September 2021- Continental Warehouse

Warehouse Coordinator

Responsible for Shipping and Receiving orders for various local and international clients.

RECENT CASTING

Polkadots and Monkey

SCAD, 2025

"One night, when Polkadots is sleeping, a mysterious figure haunts him, attaching him to his puppet strings. Can his best friend Monkey end this twisted performance?"

Creative Role: Actor (as Polkadots)

In conclusion, I am very proud of the decision I made to take a gap year. It allowed me to focus on gaining valuable work experience and allowed me to save money for my future. It also allowed me to prove to myself that production is truly the career I want to pursue. I was able to really give my full attention to school, and I'm very pleased with my grades and the experience I have gained during my first two years of school. I look forward to continuing my education.
