

San Antonio Math Include

Provide Greater Access to STEM Education to All Students

Lucy L.

**Director of Middlebury, Connecticut
Chapter
Tutor
San Antonio Math Include**

Lucy is a part of Class 2024 at Westover School in Connecticut. She loves math and she is really good at it. She takes AP Computer Science this year as it deeply interests her. She also joined her school Robotic team and she is preparing for a Robotic competition this fall. She enjoys helping others and being a tutor. When she went to a poor area in Yunnan, China to teach the children there last summer, she did a good job and all the children there loved her teaching. She is looking forward to joining Sami and helping more children with their academic work.
