

**Özyeğin University
Seed Research Grant Program
Proposal Form**

- Name of the Principal Investigator (PI):
- Proposal full title:
- Duration in months (max. 12):

Proposal summary:

Section A: The scientific proposal (max. 5 pages)

The scientific, technical, and/or scholarly aspects of the project should be described in greater detail, highlighting the nature of the research, its potential impact, and the research methodology.

A.1. Objectives

Briefly outline the objectives of the proposal and clearly justify why the topic merits seed funding.

A.2. Methodology

Detail the proposed methodology, including key goals and any novel or unconventional aspects. Justify its relation to the state of the art and highlight stages where results may require project adjustments. Explain the advantages and disadvantages of any new methods or techniques.

A.3. Resources (incl. project costs)

Please complete the detailed budget table provided as an Excel sheet, along with justifications and a payment schedule.

Total amount requested:

Note on ethical issues:

All Seed-funded research studies involving human participants or animals should comply with the ethical principles and the protections provided by regulations and internal policies.

Section B: [Attached CV]

Submit a short CV as a separate PDF file, in any format you wish.

NOTE: References are not included in the maximum page limits. If you want to write, you can add your references in a separate section at the end of the proposal.
