Measurements:

- Night of Navy Card Stock: 8 1/2" x 5 1/2", Scored at 4 1/4: 2 3/4" scrap to punch
- Basic White Card Stock: 2 - 4" x 5 1/4"; 2 1/2" scraps to punch and fussy cut
- Les Shoppes DSP: 1 piece each of 3 designs 3 3/4" x 5"

Instructions:

1. Layer all 3 sheets of DSP on top of each other. Mark a pencil tick 2 1/4" down from the top and 2 1/4" up from the bottom on the righthand side. The angle cut all 3 sheets from the top left corner to the top tick mark; then from from the bottom left corner to the bottom tick mark. Then mix and match the layers so you have one of each in three different piles – this will allow you to make three cards if you wish.
2. On your scraps of white stamp the bird shown, then the glasses with Memento Ink Tuxedo Black and allow to dry; also stamp the books and allow to dry. Once dry you can color images with blends indicated – then punch bird with the 2" punch and fussy cut the books.
3. Punch a Night of Navy circle using the 2 3/8" punch.
4. Add the large Basic White Card Stock layer to the front of your card. Place the three DSP pieces as shown leaving a little bit of white between the pieces.
5. Adhere the bird circle to the Night of Navy circle and adhere to the front of your card. Adhere the books just below the birds feet. Add second layer of Basic White to the inside of your card and sentiment of your choice.
