

1. The air-pressure
2. Fold-up radome
3. radar antenna
4. Stand scanning antenna
5. loop fairing
6. Reticle optical locationstation
7. Nistoplivopriemnoy rod for refueling
8. bow compartment radar and optic-electronics sighting system
9. Lower antenna infrared and radio systems
10. sensor angle of attack
11. front pressure bulkhead
12. retractable headlamp, the left and right side
13. lateral part of the pressure
14. chamber Traction from engine control levers exhaust
15. Fuel intake rod in position Dashboard
16. cover Instrument
17. readout indicator on the windshield
18. Upward cockpit lamp
19. Kapult seat K-36DM "zero-zero"
20. Cabin hydraulic cylinder
21. Headlight Air pressure receiver pressure
22. Rearbulkhead
23. Temperature sensor
24. Flap of the front landing gear niche
25. Paired non-braking wheels of the front landing gear
26. Long-range missile 3M80 Mosquito
27. Folding rocket stabilizers
28. Hydraulic cylinders for turning the front trolley landing gear
29. and steering lights
30. Antenna BRE0 on the front edge of the wing
31. Compartment aircraft equipment behind the cockpit
32. Ammunition, 149 shots
33. Shortwave omnidirectional antenna
34. 30mm cannon GSH-301 influx right half wing
35. canards
36. Guided missiles
37. Brake shield
38. cover of a fuel tank
39. central fuselage fuel tank
40. fuselage fuel tanks
41. central suspension for missiles 3M80
42. Ramp
43. hydraulic latch ramps
44. Hydraulic drive-
45. All inclusive console of the front horizontal tail unit
46. Air intakes
47. Panels with profiled slots
48. Blinds recharge
49. protective net
50. Flap of the niche of the main chassis

51. Actuator cylinder Flaps
52. Niche of the left landing gear
53. Air channel
54. Nodes of the
55. The first stage of the engine compressor
56. wingIntegrated fuel tanks of the center section
57. console mounts antenna BRE0
58. Hydraulic cylinder of the brake flap
59. Right strut of the chassis Folded
60. Access panels to the fuel tank
61. Console cylinder
