

International Data Week ESIP Coordination

From Erin: We are working on ESIP presence at International Data Week. Details from Data Week have been slow, so I'm not 100% sure if there will be an exhibit space, if there is, we will be there. Please add events that you are aware of that are ESIP-relevant (especially led). We will be publicizing events of the week throughout the week. Thanks!!

ESIP Exhibit Space

Annie Burgess will be coordinating with ESIP community attending IDW for demos during breaks Tues - Thurs. If you have something you would like to share, please submit through [this form](#) by September 2. Space is first come first serve.
