Community Justice and Mediation Center

Type of resource: conflict resolution

Hours: flexible

www.cjamcenter.org; mediate@cjamcenter.org

This is a difficult time for many of us. We at the Monroe County Area Mutual Aid COVID-19 group urge community members in conflict with others to seek alternatives to calling the police for conflict resolution, which can be harmful for vulnerable members of the community.

For community members who are in need of mediation services and would like to seek alternatives for resolving conflict and promoting restorative justice, the Community Justice & Mediation Center is still taking referrals via phone or video conferencing. This service is confidential. To request services, refer a client, or ask questions, please email mediate@cjamcenter.org or call CJAM's office at 812-336-8677 and leave a message.

The Community Justice & Mediation Center is a community based nonprofit organization that provides mediation and restorative justice services. www.cjamcenter.org.

Project Pink Bloc

Type of resource: aid to sex workers in Indiana

If you are an in person sex worker in need in Indiana, just message us on facebook, Instagram or via our email (projectpinkbloc@protonmail.com) and tell us how much you're requesting up to \$100 and your

method of payment, as usual. If you are someone willing to donate, please message us with the payment methods you can use and how much you're willing to donate. A member of our collective will then privately respond to each donor with a paypal/venmo/cashapp of someone who needs their donation.

Because we take security seriously, only the collective members working on this project will have access to our messages and the list of both donors and workers in need. We will periodically clear the list after people have been given assistance. The plan is for only a collective member and one donor to ever see your PayPal/venmo/cashapp handle, but we might have to send 2 or 3 donors your handle in order to get you the full amount you need, depending on how much each individual donor can offer. We strongly encourage any worker asking for assistance to make sure their payment handle is not their government name. And we need donors to remember to NEVER mention anything about sex work in the memo of a transaction. We understand this isn't the most ideal situation, but it's the best we can come up with at this moment with such an immediate need while navigating a world post FOSTA with a government and many corporations who hate sex workers.
