

Chinese Table Tennis

Object of game: to be the last player remaining

Equipment: ping-pong table, ping-pong paddles, ping-pong ball

Up to 12 players per table

Players number themselves off 1 through 12.

Player 1 serves the ball to player 2.

On the serve, the ball has to bounce at least twice on the table and go off the opposite end of the table.

Player 2 allows the ball to bounce on the floor one time and then must hit it back up onto the table.

Player 3 allows the ball to bounce on the floor one time and then must hit the ball back up onto the table.

Play continues in this manner until a player does not hit on first bounce or ball misses table.

When that happens that player is out and play continues in order beginning with the next player in consecutive order.

If player 3 gets out, then player 4 would serve to player 5 and game would continue.

When a player is out they must stand away from the table, until a new game begins.

A player must not impede another player from getting to the ball.
