Overview About SE Ranking vs Semrush

SE Ranking and SEMrush are competitive SEO tools with different features

Alt: In-depth comparison of SE Ranking vs Semrush

It will not be as simple as you may think to determine which tools are better between **SE Ranking vs Semrush**. Let's begin with an overview of each!

What Is SE Ranking?

SE Ranking is an advanced cloud-based platform designed for digital marketing professionals. It offers a wide range of tools and features to assist with various SEO tasks, including tracking rankings, analyzing competition, conducting website audits,...

What Is Semrush?

Semrush is an all-in-one digital marketing platform that provides tools and insights to help businesses improve their online visibility, analyze competitor strategies, and optimize their marketing efforts across various channels, including finding out your trends, PPC, social media, content marketing,...

User Experience

Examining user experience between SE Ranking and Semrush

Alt: Evaluation of SE Ranking and Semrush

SE Ranking

SE Ranking offers a user-friendly interface that is visually appealing and well-organized. The dashboard conveniently presents essential features like keyword research and competitive analysis in a top bar. On the left side, you'll find a comprehensive set of features that provide detailed information about your project. The clean layout ensures easy accessibility to all the tools and data you need for effective SEO management.

Semrush

The user experience of SEMrush can be described as comprehensive and feature-rich, but it may feel a bit complex for some users due to the various toolkits it offers. SEMrush divides its features into different toolkits, each serving a specific purpose. While this segmentation allows users to access specific functionalities, it can also require a learning curve to navigate and fully utilize all the available tools.

Winner

SE Ranking is recommended for beginners as it offers easy access to all its features, providing a better user experience. On the other hand, Semrush, although also well-designed, may be overwhelming for new users due to its extensive range of tools and features.

Keyword Research

Understanding user search habits to optimize website content

Alt: Comprehensive overview of SE Ranking and Semrush

SE Ranking Keyword Research

The keyword research database at SE Ranking is not as large as Semrush's. However, it still gives useful information for organizations trying to improve their SEO approach. SE Ranking's keyword research tool provides a variety of tools and statistics to select suitable keywords as well as evaluate search traffic, competition, CPC, and competition-level data,...

Semrush Keyword Research

In addition to the typical data that SE Ranking evaluates, SEMrush's keyword research includes assessing search intent, trends, and rich snippets. SEMrush, with a database of over 20 billion keywords, may give significant insights and assist in the discovery of semantic keywords related to a certain niche.

Winner

When comparing **SE Ranking vs SEMrush**, SEMrush outshines SE Ranking due to its vast database of 20 billion keywords. This extensive collection allows businesses to conduct in-depth keyword research, ensuring they have access to a wide range of relevant terms and phrases for their SEO strategies.

Off-page SEO Features

Understanding the impact of off-page SEO on search rankings

Alt: Comparison of SE Ranking vs. Semrush capabilities

SE Ranking Off-page SEO Features

SE Ranking offers a comprehensive set of off-page SEO features, including a backlink checker tool that allows you to assess your own and your competitors' backlink profiles. With this tool, you can analyze important factors such as the dofollow-nofollow backlinks ratio and identify any broken backlinks. Additionally, SE Ranking enables you to track your keyword rankings across major search engines like Google, Bing, Yahoo, and even YouTube.

SEMrush Off-page SEO Features

SEMrush offers 5 tools to analyze backlinks and compare your backlink profile with up to 5 competing domains at a time. They are:

- Backlink analysis
- Backlink audit tool
- Bulk backlink analysis
- Backlink gap analysis
- Link-building tool

The Rank Tracker feature provides detailed charts and graphics that visually represent the movement in your rankings over time. Additionally, SEMrush incorporates a handy filter that

helps you sort and organize your ranking data, making it easier to identify trends and prioritize your optimization efforts.

Winner

SEMrush's off-page SEO features are superior to SE Ranking, offering more comprehensive backlink profiles. Additionally, SEMrush's visually appealing and well-designed rank tracker enhances the user experience. Its link-building tool is particularly advantageous, automating backlink outreach campaigns for efficient and effective off-page optimization.

On-page SEO Features

Alt: Exploration of SE Ranking and Semrush advantages

SE Ranking On-page SEO Features

SE Ranking offers a comprehensive on-page SEO solution, providing an on-page performance score that evaluates your website's optimization level. It also offers step-by-step recommendations to enhance your on-page SEO. Additionally, SE Ranking's website audit tool assists in identifying areas for improvement, ensuring your website is fully optimized for search engines.

SEMrush On-page SEO Features

SEMrush offers 3 main on-page SEO tools to help businesses optimize their websites and improve their search engine rankings.

- The site audit tool allows businesses to identify and fix any technical issues such as loading speed, usability, and localization that may be affecting their SEO performance.
- The on-page SEO checker crawls through website pages, analyzing content and providing recommendations for improvement.
- The log file analyzer helps businesses understand how search engine bots are crawling their site, allowing for further optimization opportunities.

Winner

SEMrush delves deeper into analyzing and provides more accurate and detailed recommendations for optimizing on-page SEO when comparing **SE Ranking vs Semrush**. Moreover, SEMrush seamlessly integrates with other tools and platforms, making it a top choice for businesses looking to boost their on-page optimization efforts.

Local SEO Features

Comparing the local SEO features of SE Ranking and Semrush

Alt: Assessment of SE Ranking vs Semrush benefits

SE Ranking Local SEO Features

The local search rank tracker from SE Ranking is a useful tool for firms trying to boost their local SEO. It enables companies to analyze how their company ranks in local search results, offering visibility insights and assisting them in optimizing their local online presence.

SEMrush Local SEO Features

SEMrush offers 2 local SEO features to businesses:

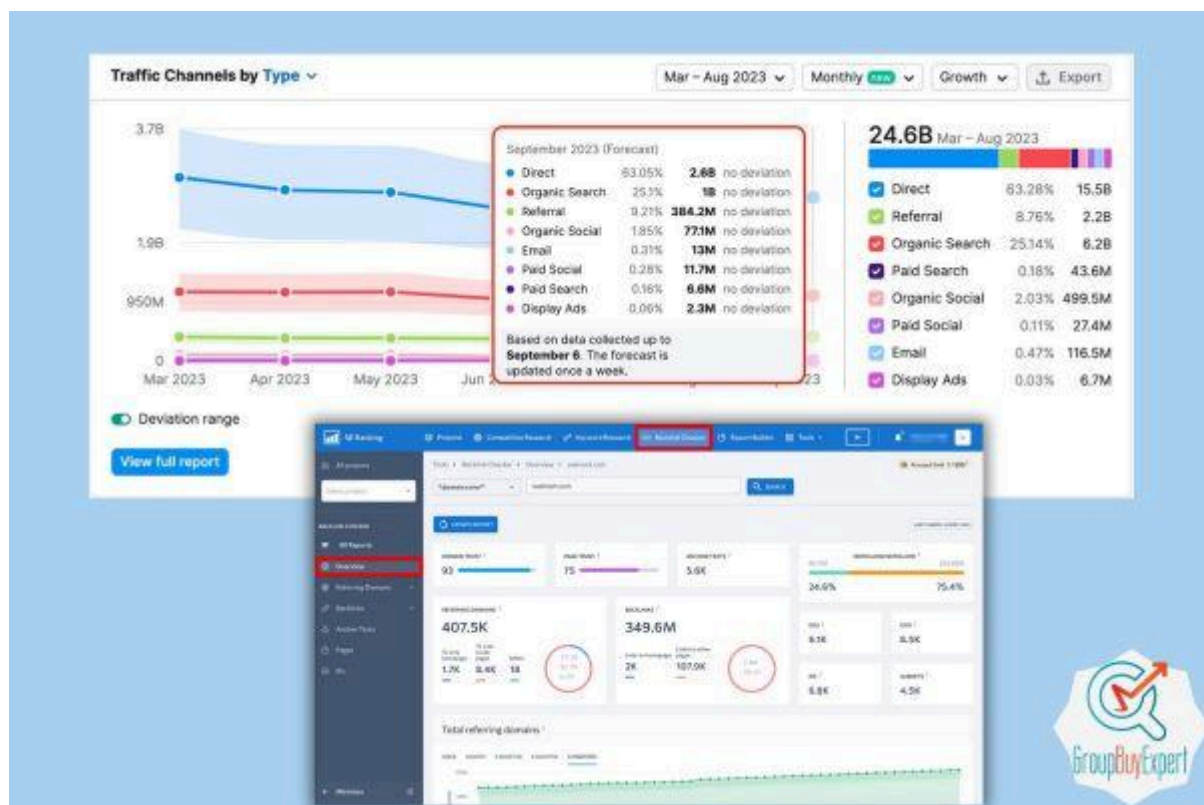

- Their listing management tool allows businesses to track their local ranking progress on a ZIP code level, which is essential for targeting specific regions or cities.
- Their social media toolkit helps businesses track and enhance their social media performance, enabling them to effectively reach and engage with their local audience.

These features are crucial for businesses looking to optimize their local presence and attract customers in specific geographic areas.

Winner

Semrush surpasses SE Ranking in terms of Local SEO Features. With its advanced tools and capabilities, Semrush offers businesses the ability to optimize location-based pages and target specific regions or cities for better local search presence.

Traffic Analytics

Comparing traffic analytics features of SE Ranking and Semrush

Alt: Evaluate traffic analytics between two powerful tools

SE Ranking Traffic Analytics

With SE Ranking's SEO report generator, businesses may produce extensive statistics on their website's traffic and performance information. SE Ranking also integrates with other systems like Google Analytics and Search Console, allowing businesses to collect and

analyze data from several sources to improve their SEO efforts. You can white-label the reports by adding your brand name and logo.

Semrush Traffic Analytics

Semrush offers a comprehensive set of traffic analytics tools, including customizable reporting features. Users can create personalized reports from different marketing channels and even white-label them with their own brand name and logo, providing a professional and branded experience for their clients or stakeholders.

However, the report provided by Semrush has a large amount of statistics but lacks graphics and a visual display of data.

Winner:

Both **SE Ranking vs Semrush** have some similar features in traffic analytics, but SE Ranking is recommended for its user-friendly graphics compared to the data-heavy reports of SEMrush.

Customer Support

Evaluate customer support services offered by SE Ranking and Semrush
Alt: Breakdown of SE Ranking and Semrush

SE Ranking Customer Support

SE Ranking offers various ways to contact their support team during their weekday working hours from 9 a.m. to 5 p.m. They offer 3 main ways to help you easily reach out to them for assistance whenever needed:

- The contact form on its website
- Email
- WhatsApp

Semrush Customer Support

SEMrush provides excellent customer service with three support channels available:

- Chat
- Email
- Phone
- A help chat box is conveniently located at the corner of every page, ensuring immediate assistance whenever needed. Their response time is efficient, typically within one business day.

With these reliable support options, customers can trust that SEMrush is committed to addressing any inquiries or concerns promptly and effectively.

Winner

SEMrush stands out as the better choice in terms of customer service compared to SE Ranking. With SEMrush, customers can expect a prompt response within a day whenever they reach out for assistance. On the contrary, SE Ranking's customer support is only available on weekdays during business hours, limiting accessibility.

FAQs

Is the SE Ranking accurate?

SE Ranking is a user-friendly SEO tool that offers a wide range of features, including keyword tracking, research, competitor analysis, backlink checking, and website optimization. Another tool as popular as SEMrush is Ahrefs. You can visit the in-depth comparison between [SE Ranking vs Ahrefs](#) here.

Is a lower SEMrush rank better?

By comparing the Semrush ranks of different websites, you can determine the extent of a competitor's online presence relative to your own. A lower Semrush Rank indicates a larger web presence, with a rank closer to 1 being more significant.

What is the weakness of SEMrush?

If you share your Semrush login with someone else and they log in with the same account, you will lose access to it. Remember, only one person at a time is permitted to use your Semrush login.

What are the cons of SE Ranking?

For newbies, the user interface of SEO tools might be intimidating, leading to misunderstanding. Furthermore, the tools are not immediately available from the UI. It should be noted that some services may necessitate additional payment.

Conclusion

In conclusion, while both **SE Ranking vs Semrush** offer valuable features for SEO analysis and optimization, it is clear that Semrush emerges as the winner in this battle. With its comprehensive range of tools, extensive database, and keyword analysis, in-depth features, Semrush provides a superior experience for businesses and marketers.

While SE Ranking may have some strengths like friendly user interfaces or affordability, it is unable to compete with the overall excellence and effectiveness that Semrush offers. Therefore, if you are looking for a powerful and reliable SEO tool, Semrush is the clear choice.
