## **Subject: Last chance to get this Million Dollar Blueprint**

I have been telling you about MoneyCraft for a few days now and well, today is the last you're going to hear about it from me.

Because at midnight today the launch exclusive offer that they opened up last week is coming to an end.

The price on MoneyCraft is set to increase to \$47 (that's a massive \$37 increase).

Honestly, considering how valueable this product is - even that price is fully justified.

But why wait and pay more later when you can still get it for a discounted price?

Don't wait - head here and secure your account right now. {Link}

### **- *What is MoneyCraft?***

Do you know what arbitrage is?

Basically, buying something for cheap and selling it to another buyer for high.

It's an age-old strategy people have been using to make money for centuries.

You see it everywhere in Stocks, Gold, Currency, Forex & now even in bitcoins.

But these 20 year olds have given arbitrage a modern-day twist.

The MoneyCraft system is a 2-part software & training that uncovers the exact blueprint these guys have been using for the past 3+ years to generate well over \$1M in sales.

See this demo of MoneyCraft in action. {Link}

And in an industry you would have never even thought about.

The Video Game Industry!

See, the gaming industry is worth well over \$300 Billion now and it's not coming to a halt anytime soon.

But here's the best part, if you think this is something only for the "young guns" - think again, because one of their most successful students is a 72 year old, William, who made \$3,000+ in his first month alone!

Crazy Stuff!

Oh and by the way - you don't need to have any knowledge about video games to make this work and you don't have to hold any sort of physical inventory. (It's all digital key codes.)

And unlike 99% of the traditional make money online methods, this doesn't require that you build a website or an ecom store or a funnel and generate email leads and drive traffic.

None of that.

It's as simple as copy/pasting honestly.

I don't think it could possibly get any easier!

Make sure you take a look at MoneyCraft before the price increases today at midnight (et/ny). {Link}

Look, I really don't mean to rush you - but this is one of those once in a lifetime opportunities that doesn't come around very often.

Don't sit it out!

Go here and secure your account while it's still on the launch exclusive pricing. {LINK}

At midnight, the price will increase by \$30!

And you don't even have anything to lose, if you don't find this system as advertised - request a refund. Your purchase is completely safe!

Cheers,

**Subject: (Final Call) 4 hours until \$30 price increase!**

Okay, this is going to be the one final email you will receive from me about MoneyCraft.

In roughly 4 hours from now the price will rise to \$47.

Rush here and get it for about \$17 while you still can. {Link}

This is a million dollar blueprint that consistently makes \$3,000+/month for Jahanzeb & Ijlal and now even their students are replicating those results.

It teaches you how to make money online by flipping popular video games online.

The best part is that you don't need to stream for hours or create gameplay videos or even have to have any knowledge about video games to get started.

And you don't have to hold any sort of physical inventory. (It's all digital key codes.)

In fact, unlike 99% of the traditional make money online methods, this doesn't require that you build a website or an ecom store or a funnel and generate email leads and drive traffic.

It's as close to copy/paste riches as it gets.

I mean - their 72 year old customer William made \$3,000+ in his first month.

That's how easy this is.

And they've made well over a million dollars so it's not a fad.

Go here and secure your account while it's still on discount. {Link}

In roughly 4 hours the price will increase by \$30.

Do not wait!

**Subject: 72 year old newbie makes \$3k in his first month...**

Personally, I have always thought that you need a website, social media accounts, email list, traffic, and HUGE investment to earn money online.

Guess what? Turns out I was wrong and if you think similarly, you are wrong as well.

Making money online has become absolutely simple with this new software plus training system called **MoneyCraft** that goes **LIVE** later today!

But... With a MODERN DAY twist.

Inside the MoneyCraft system you're taught how you can make money selling Video Game keys.

It's VERY simple...

**Step 1: Follow the instructions to locate in-demand items.**

**Step 2: Find a low-cost item and relist it where they will show you to.**

**Step 3: Wait for your order (which usually comes quickly) and collect your money.**

That's it! This has to be one of the most straightforward methods for FINALLY making real money online in as less as 48 hours after signing up!
