Everyone nowadays has a craze to start an online dropshipping store. But only lucky ones can.

You can be the one.

Let me tell you a story about my friend named Alex. Alex was an ordinary college graduate like everyone working an ordinary 9-5 jobs. At that time online business was not as famous as it is today. But he knew about it because of me. Because I was in that market. One day he didn't have enough money to buy some food for him so he had to borrow money from his sister.

Can you imagine this !

A full grown man borrowing money from his sister. On that day he felt very shameful that after so much hard work I still don't have enough money to eat something. From that day he quit his job although it was a risky move but without taking a risk you will always be a loser. He did extensive research and decided to start an online drop shipping store. And he consulted me to teach him every pros and cons about dropshipping I knew after so much experience.

In the beginning he knew nothing about it.

- . He didn't know how to make money making dropshipping stores.
- . His store always looks & feels sketchy.
- . He always finds it impossible to drive action to his website.
- . He doesn't know how to find a magical product for his store.
- . He can't find a good fulfilment partner.
- . He doesn't even know how to test his products perfectly.

But he didn't lose hope and courage. He gains every piece of knowledge he can because he knows he didn't have a choice. He knew he had left the path of slavery and would never come back on it. After going through the program he knew everything a successful dropshipper needed in his journey.

- . He knew how to find a winning product.
- . He knew how to get a good fulfilment partner that can deliver his products in time.
- . He knew how to select products that have high profit margins.
- . He knew how to understand the emotions of your audience.
- . He knew how to find a good supplier that is trustworthy and can make deals to undercut competition.

Now he is living his dream life because in the beginning he knew he could do something if he had a right mentor who could teach him everything.

If you don't believe what I am saying you can have a look at some words from Alex himself.

Testimonial of Alex.

Subject Line : The #1 WORST mistake for a dead dropshipping business. (stop using it IMMEDIATELY)

Copy :

Hi there,

Did you know the #1 mistake that is stopping you from making a successful dropshipping store and making you like 98% of other dropshippers who say dropshipping is dead.

Harvard researchers say **this #1 mistake** can lead you to a dead dropshipping store -- the villain behind your progress and dreams.

And at least every 1 out of 3 dropshippers is doing it.

And that is the main reason why they are not successful.

What is that one main mistake? Do you want to know?

The mistake is that they don't focus on providing as much value as they can to their customers.

Your customers are the pillars of your business.

As Sam Walton once said " There is only one boss. The customer. And he can fire everybody in the company from the chairman on down, simply by spending his money somewhere else."

Harvard research also shows that acquiring a new customer is anywhere from five to 25 times more expensive than retaining an existing one.

So, Your main priority should be to build trust with your customers and treat them like a family.

Be ready for the next email because in the next email I will provide an opportunity that will make your jaw drop.

Peace.
