

# Hour of Creation

OETC 2018

February 22, 2018 | 2:30 PM-4:00 PM | Location: Cascade C

**Session Overview:** The “Hour of Creation” is a program offered to teachers in our district in order to build capacity for using 1:1 devices for students to take ownership of their learning by utilizing creation apps on the iPad. By offering this opportunity during the school day, our goals are to maximize the collaboration time between student - teacher - Instructional Technology Facilitator (ITF) - Teacher Librarian and provide a variety of ways for students to demonstrate their learning through creation. ITFs model the power of students using technology to collaborate, communicate, create and think critically in small rotation groups. We use multiple strategies to train the students in order to provide professional development for their teachers.
