2. Stop police crimes! Community control of the police now!
3. Immigrant Rights and Legalization for All!
4. Defend LGBTQIA+ & Reproductive Rights!

6. Defend the right to unionize and strike!
7. Justice, Peace, and Equality!

DONATE / FUNDRAISE

Our march will bring tens of thousands of people to the front door of the DNC, and we need the equipment, from vests to sound systems, to make our voices heard and keep us safe. We need to purchase water, medical kits, portable toilets, a stage, banners, and so much more.

We cannot host a national march without material contributions from the people's movement. If you stand against the war machine and for the rights of working and oppressed people, we call on you to join the march in August and support its build-up.

The repressive forces of the Chicago Police Department (CPD) have millions at their disposal to attempt to dismiss our march, including an infusion of \$75m from the federal government to build up their security apparatus, including a new helicopter to police our movements.

We need funds to ensure that the March on DNC coalition is prepared to organize a march that is family-friendly, accessible to our vulnerable community members, and can withstand the repression of the CPD and other security forces.

You can contribute to the march either as an individual or as an organization. Host an event or fundraiser yourself in your communities or on your platform [sending people to the link here to contribute](#).

Do you or your organization have materials to spare, want to coordinate on fundraising efforts, or have further questions? We want to get in touch. Email us at contact@marchondnc2024.org.

If you're an organization able to help house people during the DNC, reach out to: contact@marchondnc2024.org

1. 🇵🇸 Join us to March on the Democratic National Convention! Stand with Palestine and demand: an end to US aid to Israel! 🖐️ Stop police crimes 🖐️ Community control of the police NOW 🖐️ Immigrant rights and legalization for all 🖐️ Defend LGBTQIA+ and reproductive rights 🖐️ Defend the right to unionize and strike 🖐️ Money for jobs, schools, healthcare, housing, and the environment NOT for war!
2. The Coalition to March on the DNC calls on all people of conscience to speak out, join us, and to get involved in building this unified movement to fight against all white supremacist systems put into place only to divide and oppress us. We must unify and fight for liberation as one!
3. We're seeing an increased level of violence on all fronts - families being separated at the border, deportations happening en masse, children abused in police stations and shelters, and police brutality against Black and brown communities continues its rampage. Our struggles extend beyond borders. Not only does the U.S government criminalize and terrorize our people in the states daily, but they also use our taxpayer dollars to fund violence and oppression against our communities in our home countries as well. Join the coalition to demand better for our communities here and abroad!
4. The selective rage of the U.S. government is shameful, racist, and intentional. We'll always remember the words of all elected officials who are supposed to represent us but instead represent zionism, xenophobia, killing and genocide. They made the active choice to ignore our struggles for freedom and equality to criminalize our liberation movements and to further their support for the mass oppression of our people everywhere across all communities! Joe Biden, the Democratic Party, the media, and every crooked politician has blood on their hands!

[Stand with Palestine. End U.S. Aid To Israel!](#)

EXAMPLE CAPTIONS

- This year, we [#MarchOnTheDNC](#) to demand for the end to the U.S backed [#GazaGenocide](#)! Over 40k Palestinians have been murdered by Israel as the U.S. continues to unconditionally support Israel in its heinous rampage. Shame on [#GenocideJoe](#) & all politicians complicit in a genocide!
- We have been heavily mobilizing all across the nation in our demands for the end of the [#GazaGenocide](#) and for the total liberation of Palestine, from the river to the sea. The Coalition to [#MarchOnTheDNC](#) calls on all people of conscience to speak out and join actions to stop the Democratic Party's backing of this genocide and the attacks targeting Arabs, Muslims, and Pro-Palestinian activists!
- Not only has [#GenocideJoe](#) Biden turned his back on many of his campaign promises, especially to us, the immigrant community, he has actively participated in the genocide against the Palestinian people in Gaza by sending Israel millions of American tax payer money to back Israel economically and militarily.
- Before October 7th, we knew that the U.S would give Israel over 3.8 billion dollars in military and other aid, which it used to continue its racist colonization and occupation of the Palestinian people. The U.S. unequivocally supports Israel because it's a white supremacist, settler-colonialist state with the goal of ethnically cleansing Palestinians and because it serves U.S. imperialist interests in the Arab world and broader Middle East.

Example tweets

- Over 40,000 Palestinians have been killed and the democratic party continues to fund the slaughter of Palestinians and the illegal settlement of their ancestral lands by the Zionist apartheid state of Israel. Stop the genocide now!
- We recognize all humans' right under international law to resist occupation! Resistance is justified when people are occupied. We stand in complete solidarity with the Palestinian people in their fight for national liberation. Power to the Palestinian resistance!
- The same tactics of violence and oppression used against Palestinians are used against Black people here in Amerikkka. CPD, KKK, IOF you're all the same!
- Zionists aren't welcome here! We stand with Palestinians in their demands for national liberation. Defend Indigenous sovereignty and land rights!

[Stop Police Crimes. Community Control Of Police Now!](#)

STAND WITH PALESTINE!

**STOP
POLICE
CRIMES!**

**COMMUNITY CONTROL
OF THE POLICE NOW!**

END U.S AID TO ISRAEL!

EXAMPLE CAPTIONS

- A common thread throughout our movements is the political repression we face at the hands of the powers that be. As people's movements gain steam under worsening conditions, the system tries harder to stifle our resistance. Though Republicans tend to be more viciously repressive against those who dare to fight back, the Democratic Party frequently unites with and enables these attacks.
- The struggle against racist policing and mass incarceration is central to our movements, which leads us to demand community control of the police and an end to police crimes. The Democratic Party failed to take any meaningful action following the George Floyd Rebellion, with nearly 100 murders at hands of the police per month occurring in 2022, and the total for 2023 nearing 1,000. Black and brown people, disabled people, and other oppressed communities make up a disproportionate number of those murdered, as well as those kidnapped, assaulted, and wrongfully convicted.

- Fighting back against the U.S. criminal legal system designed to enforce the oppression of Black and brown people and the political repression of the people as a whole is central to the survival of our movements. In order to defend our movements, we carry the demand for community control of the police as we march on the DNC.

Example tweets

- End police tyranny! To keep our communities safe, we need killer cops off our streets. The only way we can hold police accountable is by building people's power over who polices and how our communities are policed. We demand community control of the police NOW!
- Justice for Dexter Reed! We demand an end to TACT teams and pretextual traffic stops that target Black and Latine communities. We demand an end to these stop-and-frisk practices that cost the lives of our loved ones. COMMUNITY CONTROL OF THE POLICE NOW!
- We demand justice for the 407+ known survivors of police torture in Chicago, 110 of whom are still incarcerated! We know at least 248 CPD officers are responsible for torturing our loved ones, and they MUST be held accountable. Free them all! Free them now!
- The FOP contract lets CPD officers get away with murder and egregious misconduct! We are building power to hold officers' feet to the fire of accountability, transparency, and community control. Pass the Referendum for Community Power over the Police now!

Immigrant Rights & Legalization For All!

STAND WITH PALESTINE

IMMIGRANT RIGHTS AND LEGALIZATION FOR ALL!

END U.S AID TO ISRAEL!

EXAMPLE CAPTIONS

- The Chicago March on the DNC coalition is committed to the defense of immigrants, and we demand legal recognition for all undocumented workers. The actions of Democratic & Republican politicians, past and present, have fueled the so-called migrant crisis.
- US intervention, under both Democrats and Republicans, in countries across the globe has devastated economies and forced people to migrate abroad in search of better lives. Biden ran for president promising the Latino and immigrant movements that he would reverse the attacks that came down on their communities under Trump and enact immigration reforms that these movements have demanded since the 1980s.
- Biden is working with Senate Republicans on extreme anti-immigrant proposals: building Trump's wall; and increasing deportations to 225,483 for the first half of the fiscal year. Biden justifies selling out immigrant communities to get support for the war in Ukraine and for the genocide in Gaza. Going further, he now is threatening Trump-era border restrictions: gutting the asylum system; increasing detention of people awaiting processing at the border; and enacting summary border expulsion policies more extreme than Trump's Title 42.

- We demand that Biden follow through on his promises toward immigrants rights, and we demand legalization for all 12 million undocumented people living in the US! Join us in August to March at the DNC in Chicago to defend migrant and immigration rights!

Example tweets

- From Palestine to Mexico, these border walls have got to go! Brick by brick, wall by wall, we will tear down every barrier to justice. #LegalizationForAll
- The only migrant crisis we're facing is the one democrats are manufacturing! Imperialist plunder and U.S. intervention, using puppet governments to plunder people and land internationally, is the primary cause of the migrant crisis worldwide.
- Raise the Wage! Sahod Itaas! We oppose all exploitation of migrant labor and demand #LegalizationForAll!

Defend LGBTQIA+ Rights!

**DEFEND
LGBTQIA+ &
REPRODUCTIVE
RIGHTS!**

END U.S AID TO ISRAEL!

EXAMPLE CAPTIONS

- The Chicago March on the DNC coalition is also united around the demand to Defend LGBTQIA+, Women's, and Reproductive Rights. You can read from our unity statement below on why we're bringing this demand to the steps of the DNC in August 2024:
- The Democratic Party is complicit in the surging right-wing attacks on women, workers, and the LGBTQIA+ community. In spite of their lip service to the women's and LGBTQIA+ movements, the Democratic Party has not backed their words with actions. That is why we are marching on the DNC this August. Join us!
- As Democrats use reproductive and LGBTQIA+ issues to pinkwash the U.S.-funded Israeli genocide in Gaza, their economic policies put women, LGBTQIA+, and disabled folks in the U.S. at a disproportionate risk of harm and exploitation.

Example tweets

- We will not let our queerness be weaponized for corporate profits and plunder! Defend LGBTQIA+ rights!
- Queer as in Free Palestine! There is no reproductive, gender, or LGBTQIA+ justice in genocide!
- Queer joy looks like (1) demilitarising our communities, (2) community control over police, (3) money for jobs, education, and healthcare, not for war & occupation, (3) divesting from genocide and wars of aggression!
- Queers for Palestinian Liberation! We're not free till we're all free!

[Defend the Right to Unionize and Strike!](#)

EXAMPLE CAPTIONS

- Our coalition is marching on the DNC to demand the inalienable right of working people to organize ourselves to improve our conditions and fight for a better world. Join us this August to bring our demands within sight and sound of the Democratic National Convention!
- “Biden has failed to deliver on campaign promises to pass the Pro-Act which would strengthen workers’ rights to unionize. Instead, he sided with big business by signing legislation that stripped rail workers of their right to strike. The environmental and public health disasters which resulted from train derailments in the following months likely could have been prevented had Joe Biden defended workers’ right to organize and strike for safety improvements

Example tweets

- Defend genuine, militant trade unions! We don’t get everything we fight for, but we fight for everything we get. Raise the wage! Stop the exploitation of workers!
- It is our right to unionize! It is our right to strike! We will not back down. Defend our constitutional rights! Protect worker rights!
- Our bodies are not commodities! We will not stand for labor exploitation!

Funding for Jobs, School, Healthcare, Housing, & Environment, NOT FOR WAR!

EXAMPLE CAPTIONS

- The March on the DNC coalition understands that ending bipartisan wars of exploitation is essential to winning justice and liberation. We raise the demand for Money for Jobs, Schools, Healthcare, Housing, and the Environment, Not for War when march on the DNC in August.
- The US is the wealthiest country in world history. The US was founded on the genocide and colonization of Indigenous people and the enslavement of millions of Africans, and it continues to wage wars of exploitation to this day. In spite of its riches, the US government refuses to provide basic resources to its own residents. In the words of Tupac Shakur, "They got money for war but can't feed the poor."
- The military budget this year is \$842 billion. The Energy Department spends an additional \$30 billion annually on nuclear warheads. The spy, assassination, and other agencies get another \$30 billion. Biden got another \$133 billion for the war in Ukraine, and now wants \$46 billion more for Ukraine and \$4 billion more for Israel's genocide in Palestine.
- Meanwhile, almost half of the families in the US live paycheck to paycheck and 19% of Americans have \$0 set aside for an emergency. The poorest school districts need more than twice as much as current spending per student to provide an adequate education. Chronic underfunding of our public health system was a major reason why the US had the highest number of Covid deaths in the world: 1,156,484 people. Homelessness in America is surging to record highs amid high rents across the country: almost 600,000 people, many of whom are children, are unhoused.
- Even corporate consulting firms estimate that the world would need to spend as much as \$9 trillion annually to prevent the growing environmental catastrophe. The Democrats spending billions on war in the middle of an economic and ecological crisis shows their willingness to sacrifice the survival of our people and planet for the sake of profit.

Example tweets

- The genocide of Palestinians is funded by our tax dollars, pension funds, and tuition. Yet our schools and healthcare system are underfunded. Money for healthcare and education, not for war and occupation!
- We can't find jobs, can't afford rent or food, and can't get medical attention, but democrats can spend billions of our tax dollars to wage wars of aggression against civilian populations and reap superprofits off of genocide? That ain't right! Put people over profit now!

Justice, Peace & Equality

END U.S AID TO ISRAEL!

EXAMPLE CAPTIONS

- Our coalition is marching on the DNC to demand the very core of everything we fight for: a society that achieves justice, peace, and equality.
- Together we fight for justice, peace, and equality, but we know that in order to achieve both peace and equality, we must first have justice. We refuse to be pacified by Democratic Party leaders making empty references to justice while ignoring or opposing the demands of the people's movements. We will not maintain a false peace domestically while our tax dollars are funding genocide and war abroad. We will continue to fight until we achieve true equality."
- Our liberations are tied to one another and together we can put an end to these colonialist systems that harm us all. Oppressed people all around the world are harmed by the same white supremacist systems and it is imperative for us all to support each other's struggles towards liberation. The people united will never be defeated! When the people unite, the people win. Long live immigrant rights, workers' rights, the international working class, womens' and LGBTQ+ rights, reproductive justice, the students fighting for justice, and long live Palestine!

Example tweets

- Justice = People over Profit! Empty promises of peace won't cut it. Put your money where your mouth is! Fund our communities, divest from genocide!
- The people united will never be defeated! We are a broad network of people across diverse sectors in society. Your place is in the movement. Join the resistance against capitalist plunder and imperialist agendas. Advance the people's agenda!
- There's no peace on stolen land. From Palestine to Turtle Island, #LANDBACK. Defend Indigenous Sovereignty!
