Eure Erfahrungen ? Kennt ihr Lösungen in Moodle? Eure Tools ? Entwicklet jemand etwas?

...

h_da: We are looking forward to implement a chat gtp chat into the help button of moodle as a moodle help chat for all users. It will get a source of truth out of the support database of our first-level support and our support documents ...and the moodle 4 support wiki.

RWTH Aachen: Decentral project on using a chatbot connected to ChatGPT as a digital tutor. The chatbot is fed with the course materials and will answer questions. Project just started on a decentral instance with about half a dozen courses and professors participating and experimenting with it.
