| Continuation Route: Fashion Design |
| Project Title: |
| Project Aims and Objectives: Theme: <p>The theme that I chose for this project is Earthly Delight. In my opinion, exploring the unknown is one of the things that delight me the most, I love caving, tracking, sailing, kayaking, canoeing and mountaineering. I wanted to use exploration and Alice in wonderland for my inspiration and develop six fashion illustrations for the final outcome. The project will take six weeks to complete and I will be using mix medium to create these drawings. The target customer for this collection will be celebrities who attend different high class events and the garments that I design will mainly be Haute Couture. I will also be researching different recyclable materials so that the final garment can be more sustainable to the environment. The colour scheme of this project will be using a dreamy palette, including khaki, purple, blue, red and pink.</p> <p>I will be creating a Spring fashion collection for women on the theme of Alice in Wonderland this will incorporate pocket change and asymmetrical trends, I will be creating a haute couture collection for the catwalk. My design will use sustainable fabrics for my design. My collection will be six outfits and I will be handdrawing these designs then adding these to Photoshop to create a portfolio that incorporates a colour palette, sustainable materials and my designs. This will be completed by the deadline at the end of this term.</p> Research |
