LIKES: His family, his friends, modeling, drinking, brewing, being obnoxious, being overprotective

DISLIKES: Noah Nam, weddings, TAs, the idea of his daughters growing up, being smothered, people hurting his people

PERSONALITY TYPE: ENFJ

HISTORY:

A result of a casual meeting between two classmates, Ronan was born to Hensley Smith and Emrys McCarthy on May 10th, 2084. The couple was madly in love with their child, and with time they grew to fall in love with each other as well and decided to marry when Ro was 2 years old. He was the ring bearer in their wedding and ecstatic that his parents had decided to settle down together so the three of them could be a proper family. Hensley was a witch and when Ronan began to display magical abilities at age 6 she told her family about her heritage and the magical world and insisted they enroll Ronan into a wizarding primary. It was quickly determined Ronan was in fact a wizard and he attended Ilvermony school of Magic at age 11 where he was sorted into house Wampus.

At Ilvermony, Ronan met his friend Lucy Amstern who introduced her to the rest of his family, where he also became fast friends with her younger sister Kimberly. While Kimmie was not yet at magical school, she was attending a primary and also was able to introduce Ronan to another close friend, Chloe Wynter. He got along well with both of the younger girls and kept in close contact via owls until K was old enough to become his partner in crime at Ilvermony and Chloe was sent to Hogwarts. They spent every summer together and he was there for the girls when things went awry in their lives. This led to them forming a very tight knit group and as he grew older he became fiercely protective of them -- to an almost extreme sense.

For his 6th year, after Chloe, one of his best friends at Hogwarts School of Witchcraft and Wizardry, got into a situation where it was clear she needed her support group. Concern for his friend brought him to being able to convince his parents to allow him to transfer to Hogwarts where he was sorted into House Gryffindor and met new friends; Inkeri Aesir, Islay Moreau,

Mathias Koizumi and to a degree, Noah Nam. Another old friend from Ilvermony transferred that same year, Catriona Sawyer who he was thrilled to also still have around.

In October of his Sixth year, he found out his now wife, Inkeri Aesir was pregnant. Ronan and Inkeri both made the decision to take the exams early so they could graduate and raise their daughter, Brie, together. After Brie was born, Ronan proposed to Inkeri wanting to raise their daughter together. She accepted and they then began to make plans.

Ronan and Inkeri attempted a wedding, which ended poorly, however they did elope and tie the knot with his father, their friend Islay Moreau and her beau there as their attendants. The couple now has... seven or eight children (multiples and one loses count) and Ronan spends most of his time drafting his own brews at home while also staying home with their and their close friends broods.

Am I so thin that you can see through?

FACECLAIM: Lucky Blue Smith
