

Alaska by Adventure Bike

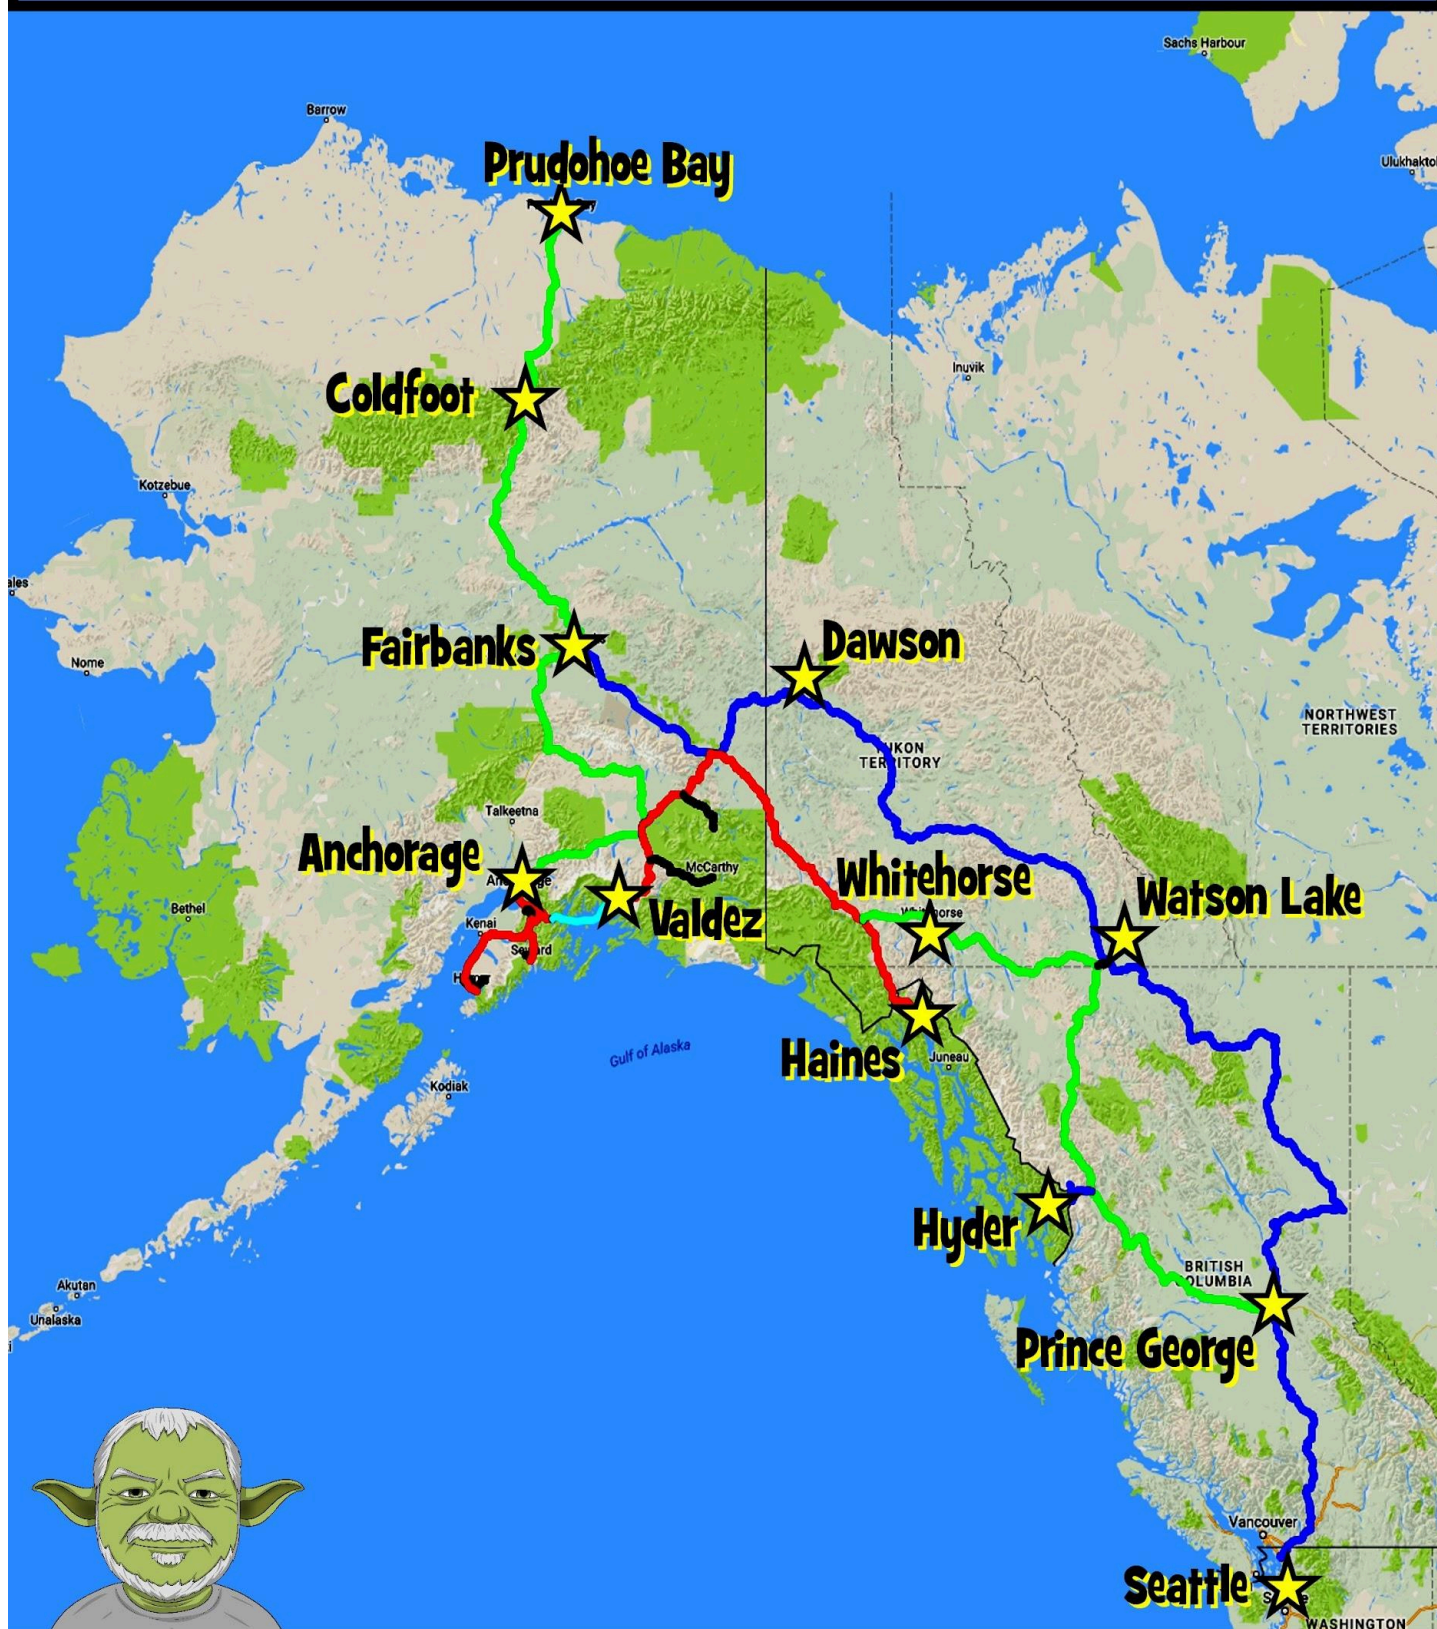

Self Guided Tour

Consider coming prepared to help your fellow rider: *"It is not just about you riding your bike across America, it is about all of us riding across America. It is about helping your fellow rider and laughing along the way. Everyone needs help at some time, but would your friends say that you are more likely to need help on a ride or are you more likely to offer help on a ride? When everyone comes prepared to be more helpful then rides turn out awesome. Come with this attitude! And you will find lots of helpful people on this ride. And lots of fun!"*
