

## Instructions for the Impact Baseline Concussion Test

Because of your sport, you have been selected to take the Impact Baseline Concussion Test. While this is not a requirement of participation, it is strongly suggested that you complete this simple 25 minute baseline assessment. Failure to do so may result in an extended recovery time following a diagnosed concussion.

This is a simple assessment of memory and reaction time only. This is not an academic evaluation. Please follow the directions below and read each section very carefully so that you understand what is being asked of you in each section. Once you have completed it, it will automatically be saved.
