

I am a biologist with Fisheries and Oceans Canada at the Bedford Institute of Oceanography in Dartmouth, Nova Scotia. I have been with DFO for almost 17 years, and I've served as a PIPSC Steward for 9 years. I am a strong believer in the importance of public science and the labour movement. I don't know what the next three years will bring, but I will continue to advocate for Atlantic Region members and work on solutions to the challenges you are facing. In my next term I would like to focus on increasing the presence of PIPSC in the workplace, and engaging and organizing our membership.

I have been the Atlantic Representative on the SP Group Executive for two terms (2019-present). In that time I have had several portfolios, including Membership Coordinator (2019-2021), Secretary (2021-2024), and Content Coordinator (2024 – present), and I served on the Bargaining Team (2022-2024). Locally, I am President of the Mainland Nova Scotia SP Sub-group (2018 - present) and PIPSC representative on DFO Local and Regional Union-Management Consultation Committees (2016 -present).

I would be honoured to have your support to serve on the SP Executive for another term.
