

Hellenic Association of Realtors!

I saw the value you provide with your 13 properties that are all very appealing and unique! You are representing them in an OK way, but it would be so much better if you implement some of my ideas, something when read, customers will ask where do I buy?

I came across you on Facebook and it wasn't that hard finding your actual business website which is also OK, but some major improvements are coming its way! A copy/text that will convey people to, at least, take interest in what you have to offer, if not buy them immediately!

Your "Purchase process" that goes into the interesting topic "Why should I buy in Greece" is awesome and not many people have it! That's what separates you from the rest and I really like that!

Which is why I went ahead and actually wrote down the ideas I had whilst looking over your business as a whole. I strongly believe that they should provide value if you are interested in them of course!

You're asking yourself: "Why should I choose this guy? I don't know him, I'll wait a whole week before getting some real improvements for my business... I'll just choose some other copywriter/digital marketing consultant..." But, we'll build unbreakable trust, an honest relationship that blooms with business improvements and of course more \$\$\$!

This is just some of the things I do and am looking to start our business relationship!

Sincerely

Connected Stream MA
