Digital Video Editing - How to upload a video to your website

1. When the video is done in **Adobe Premiere**, click "Publish + Share", "Computer", "MPEG", Presets "HDTV 1080P 29.97 High Quality", File Name (Your Names ENN), Save in: "Browse" (Desktop, Period Folder), then click "Save".

2. Open **Chrome**, go to: "drive.google.com" make sure you are signed in, then click "+ New" "File Upload". Find your file (Desktop, Period Folder), then click "Open". Under where it says "1 upload complete", click the file name. It will probably say 'We're processing this video. Please check back later.' Click the 3 dots in the upper right that look like a snowman. Click "share". Where it says 'Anyone at Littleton Public Schools with the link can view', click the down arrow. Click "More…" then click "On – Public on the Web", then click "Save". Click "Copy link", then "Done".

3. In a **new tab in Chrome**, go to: "sites.google.com" then click on "New Google Sites" on the left. Click on your Digital Video Editing website. Click on the "Video" tab on the top of your website. Click "Insert" on the right, then "Embed". Where it says to Enter URL, paste your link (ctrl+v) you copied at the end of step 2. Click the "Insert" button, and your video is on your website! It may take 5-10 minutes for it to render, so if you do not see it right away refresh your page. Click the "Publish" button at the top of your website. Great job, you did it!
