

Required IP Addresses for WebAPI Access

To ensure proper communication with the WebAPI instance for both test and production environments, please allow the following IP addresses on port 4747 through your campus firewall:

- 18.223.40.209
- 18.116.83.242
- 3.141.151.67
- 3.13.188.51
- 3.136.186.153
- 3.15.97.11

If outbound connections are restricted by any firewall, you will also need to allow the following IP addresses:

- 18.190.33.153
- 18.119.22.0
- 3.131.218.106

Please ensure these IPs are properly configured to avoid any connectivity issues.
