## PROFESSIONAL (CAREER) STATEMENT

I am a cybersecurity analyst and IT Infrastructure/Systems/Application Support Engineer with over 14 years of experience supporting the ICT infrastructure for businesses. My greatest strengths are my analytical mind, perseverance, and troubleshooting skills. I am also a stickler for details. My passions in life are service to humanity especially protecting the integrity of peoples and systems, and bringing joy to others. My core values are hard work, orderliness, the rule of law, fairness, and equity.

## EXPERIENCE

### **ESW Capital, Texas, USA — Professional Services Consultant**

FEB 2020 - JAN 2024

Implemented and contributed to incident response playbooks; configured BitLocker and file shredder on work computer; set up remote VPN client connection to the company's network; and requested and summarized the results of penetration tests on behalf of customers.

### **Travelpaddy.com Limited, Lagos, Nigeria — Head of IT**

OCT 2014 - FEB 2020

Carried out asset inventory and classification; identified and implemented measures to mitigate internal and external risk factors; drafted an IT policy; set up network and system hardening; published IT user guides to raise the security mindset of employees; enforced security controls like password policies; and monitored cloud and local infrastructure baseline to detect abnormal activity.

### **Wakanow.com Limited, Lagos, Nigeria — IT Infrastructure & Systems Administrator**

APR 2013 - OCT 2014

Enforced security controls like password policies; network and system hardening; user training against phishing attacks and unaccepted use of assets; and reported to management on incidents and initiatives.

## SKILLS

Python

SQL

Linux CLI

SIEM (Suricata, Chronicle)
