Background on North Tahoe School:

North Tahoe High School was constructed in 1972. In 2002 a new gym was built. The school was modernized in 2005 through 2009 and classroom wings were rebuilt and new classrooms were added as well as a new administrative building. North Tahoe School serves 5th- 8th grades on a 16 acre campus. Current enrollment is approximately 400 students. There are 17 classrooms and no portables.
