

Things you need to know before you order at Xtralife.es

You most likely clicked on this because you wanted to go to the SE page, but I'd highly recommend reading this first! Before you order here, be aware of the following:

- The pre-orders will go up at 18:30 CET.
- Pre-orders will be limited to one per person (Making a second account won't work, they check on this!)
- Making a account can be a hassle if you live outside of Spain, so set this up before hand.
- You will have to deposit 2-5 €'s once you order and pay the rest once its ready for shipping.
- Minimum price is guranteed.
- Game is sent as soon as it arrives to the warehouse, thus allowing you to possibly get it a day or two early depending on how early they get the copies.
- You can use CC, bank transfer or PayPal to pay.
- And last but not least, **the shipping costs are insane outside of Spain. Only use this website if you are willing to pay these! Shipping to Germany costs about € 28,- , and about € 23,50 for France and Benelux. You can find all the prices [here](#).**

This is all the info that you will need to keep in mind if you are buying from Xtralife.es. Good luck securing your copy!

EDIT: It seems the SE didn't go up at 18:30 CET due to high demand, but it seems sold out now.
