

Celebration of Women in Wine Returns to Napa Valley with an Inaugural Event Series During Women's History Month

Napa Valley, CA – February 11, 2025 – After a successful debut as a wine tour in Napa Valley in 2022, the [**Celebration of Women in Wine**](#) is back, bigger and better, with an exciting series of events from **March 5–8, 2025**. Powered in partnership with [**WINE WOMEN**](#), this inspiring celebration honors the trailblazing women shaping the wine industry—winemakers, winery owners, and leaders whose passion and vision make a lasting impact.

“WINE WOMEN is honored to partner with our member, Tish Wiggins, in expanding the Celebration of Women in Wine into a multi-day event dedicated to supporting professional women in the wine industry,” exclaimed the organization’s president, Ashley Burnett. “Our shared mission brings meaningful and fun experiences to our community, and we’re excited for the start of something extraordinary!”

Curated by Tish Wiggins of [**Tish Around Town**](#), the **Celebration of Women in Wine** will feature wines from Napa Valley and other exceptional wine regions, showcasing the diverse talents of women from across the industry. The series includes unique, interactive, and educational experiences designed to celebrate, connect, and empower women in wine. A portion of the proceeds will benefit **WINE WOMEN**, a nonprofit organization dedicated to advancing and empowering women in the wine industry.

“This series builds on the success of the first Celebration of Women in Wine in 2022, transforming a single wine tour into a multi-day experience, culminating on **International Women’s Day**” commented Tish, event curator. “We’re proud to celebrate the incredible women leading the way in the wine industry, not just in Napa Valley, but globally. This event is a platform for their stories, wines, and innovation.”
