	Part 2	For speaking part 2, the best way to improve your ability to is just to practice with a wide variety of topics. Here is a list of IELTS part 2 topics. https://drive.google.com/file/d/0B5QgMDk6npsRM2MxTUZMV045VDQ/view?resourcekey=0-AygxK7B_DHR7vF5IJgiBDA Practice each of them in turn. Brainstorm ideas for them, time yourself, and try to speak for a full 2

		minutes on each of them. If you can't make it to 2 minutes, brainstorm some more ideas, and then try again.
	Part 3	IELTS Speaking Part 3 is tricky for teenagers, but the best way to start building up ideas and vocabulary is to start reading newspapers and news articles in English. Websites like CNN, BBC, The Guardian or the New York Times are a good place to start.
Writing re	Task 1 structure	In terms of the structure for task 1, I can think of no better explanation than the IELTS Liz tutorial lesson. https://youtu.be/E3U1Y1jgGls We actually watched this together in class, but it's good to review again at home, especially since, based on the writing homework, it looks like there are one or two points which haven't fully been absorbed yet
	paraphrase	Here is a video that gives some hints for how to paraphrase: https://youtu.be/SObGEcok06U?si=e3aa32waZxBVZ17z

Presentation Skills / Project Skills	
A large part of the presentation is showing a Youtube video	Avoid showing Youtube videos in your presentation. Remember the purpose of a presentation is not just to convey the information to the class. The purpose of the presentation is to show the teacher that you have understood and absorbed the information yourself, and that you are able to present this information in your own words. It's also supposed to give you an opportunity to practice your English speaking. Although Youtube videos can look nice, and be entertaining, they don't actually help you practice your English presentation skills. We want you to do the speaking, not the video.
Color contrast is not good on slides	When designing a presentation, make sure that the background colors and the font colors create a suitable contrast so that the text can be easily read. You can watch this video for more information about choosing font colors: https://youtu.be/KMS3VwGh3HY?si=4MXd7xqvVKRuvDrA

Formatting on text slides is wrong (words underlined, hyperlinks, etc), because text has been directly copied from the Internet	When putting together a class presentation, it is important to use your own words. Try not to copy and paste directly from the Internet. If you just copy everything, then you do not get an opportunity to practice making your own sentences in English. That being said, if you do decide to copy any text, make sure you change the formatting to remove any hyperlinks or underlined words. Watch this videos for more information: https://youtu.be/zFPbV23bt18?si=zVbGCDIY9g2n26g0

Reading directly off of slides	When giving a presentation, you don't want to read the text directly off of the slides. See this video for examples of how to improve your presentation: https://youtu.be/S5c1susCPAE?si=-RrllitGzM1j82Hy
Speaking too fast	Fluent speech is good, but we want to keep the speed at a rate which is easy for the audience to understand. Here is a good video to watch on How to Avoid Speaking Too Fast in a Presentation: https://youtu.be/BQguB_p79NM?si=p2XZZCrABSVY0gbb

improve their next presentation, but on their next presentation, no improvement is shown	Remember, in order to improve your skills, it's important that you reflect on the feedback that you get, and make changes. Doing the same thing every time will just result in the same feedback over and over again. But making changes and improving will help you to develop more. Read this article for more information on how you can use feedback to improve yourself more: https://www.linkedin.com/advice/0/how-can-you-improve-your-future-presentations
Student is visibly nervous during presentation	It's normal to be nervous during a presentation. Much of this will get better naturally as you get older, and get more experience. In the meantime, there are some strategies you can use to manage this anxiety. Watch this Youtube video for some ideas: https://youtu.be/ryXOW1QS0ZM?si=mRYpIRJqQ8mN9-IF
