Give It A Try Checklist

✔ Unified Menu

- o swipe out from left, right, and bottom
- o go to the Locker
- o swipe from right to left to see the pages of apps

✔ Start a stopwatch
- o go to the Locker
- o select the Timer app
- o change from timer to stopwatch
- o start the stopwatch
- o keep the stopwatch on your screen throughout this checklist

✔ Open the Whiteboard app
- o begin writing with multiple points of touch; you can change color if you like
- o switch to the cursor/select tool; write with the pen, move with touch, erase with palm
- o change the background (color and/or built-in backgrounds)
- o add a chart or graph then resize with pinch and zoom, move with touch
- o move to a new space in the infinite canvas
- o select Dual User mode
- o use a ruler or protractor to make a straight line on both sides of the whiteboard
- o go back to single user by clicking the Dual User icon

✔ Make custom spinners
- o go to the Locker
- o select the Spinner app
- o use drop down menu to select *CREATE LIST*
- o Name spinner – you can make a custom spinner of your choice or input names of family members
- o enter at least 5 items into spinner
- o click Done
- o tap on settings gear, change setting so that it will not repeat selection
- o move to desired place on screen
- o spin your custom spinner
- o choose the + sign to add another spinner
- o close both spinners by using the ×

✔ Annotate over a website
- o go to the Locker
- o select the Chromium app
- o navigate to the school district's website
- o open the Annotate app
- o change the pen color and circle something on the page
- o clear annotations using the trashcan icon
- o use highlighter highlight text (you may want to change highlighter width by tapping on highlighter a 2nd time)
- o hide annotations 👁
- o scroll on page or click on a link to navigate to a new page
- o show annotations 👁
- o close the Annotate app

✔ Screen Capture an image
- o go to the Locker
- o select the Chromium app
- o search for a picture of your school
- o go to the image results and tap on the picture of your choice
- o Screen Capture the image and bring into the whiteboard
- o draw yourself in front of the school
- o resize (pinch) the image so that it is smaller than full screen

✔ Open multiple windows
- o dock the open Whiteboard to the left
- o go to Open/Recent apps
- o select the Chromium app
- o dock it to the right

✔ Close open apps
- o go to Open/Recent Apps
- o close all open apps, except the Timer, using the (x) below each app icon

✔ Stop the stopwatch

✔ Congratulate yourself for knowing the basics of your panel!
