

Farm Cove Intermediate - Board Elections 2022

Candidate Statement - Troy Scragg

I have sought re-election as a Board member of Farm Cove Intermediate, as I believe I can add value to the educational opportunities at the school. I have been on the board for six years and held the presiding member (chair) position for three years. I have a passion for supporting education. I have worked for the past 40 years in large corporate companies throughout the world, and I am now a director of multiple companies. This gives me the opportunity to give back to my local community and to work with some inspiring people delivering top education to the generation of tomorrow.

Driven by a passion to deliver organisational excellence to the businesses I represent and the teams I lead, I am a highly competent and accomplished manager with an extensive record of developing markets, leading local and international operations, generating long-term revenue sustainability and increasing operational efficiencies using exceptional negotiation and relationship-building capabilities.

With strong leadership skills and corporate governance, a record of delivering outstanding financial results in highly competitive markets around the globe, I have the knowledge and experience to build and instigate innovative strategic plans that produce expansion in revenue, market share and profitability.

I look forward to supporting the continuation of Farm Cove Intermediate's great reputation that it holds within New Zealand and internationally.
