Match Game

(Requires 2 contestants + panel of 3-6 people)

(preparation: Arrange 2 contestants and a panel of 3-6 people. Each person in the panel needs a writing utensil and sheets of paper)

Welcome to Match game.
In this game our contestants will have to enter our panel's mind.
There are 8 rounds: in each round a single contestant picks a number from 1-8 to reveal a fill-in-the-blanks statement which each member of the panel will have to fill-in without revealing to the contestants.
That same contestant will then fill in the blanks themselves. Each correct match awards one point.
The other contestant will then pick another number until all statements have been used.
The contestant with the most points at the end of the game wins.
