

IFProfs Groups: IFProfs is different than Facebook! It is a wonderful platform to connect with French educators around the globe.

1. IFProfs requires a free account to view or join a group.
2. After you log in to your IFProfs account, click on these links and join the group.
You are automatically added to the group and may view and post.
3. You can post any document type, video link, audio link, etc. in a specific group OR to the main IFProfs USA page under “Ressources pédagogiques.” If you do post it to a specific group, it makes it easier for users to find and use.
4. There are several tutorials on how to use IFProfs, but if you need extra help, please contact Catherine Ousselin (catherineku72@gmail.com)

Group topics | themes

These are the current groups on the platform. There are a few other very specific groups, but I have chosen the ones that were on our Wikispace.

If you want/need a new group or topic, you may create your own! Please let other teachers know that you created it so they may join.
