

## **FEES GRADES 7-12**

Beginning with grades 7 and continuing through graduation, students are no longer charged a consumable fee. The previously required consumable fees have been eliminated and a new system has been introduced where fees will be assigned by subject. This means that students will only be responsible for fees related to specific subjects they are enrolled in, ensuring a fair and tailored approach to fee allocation. This adjustment aims to reduce the financial burden on families while maintaining the necessary resources for a comprehensive education. The fee list is detailed below.
