

Training Confirmation form for SCRO Protocols in PACS

This training verification is required for all SCRO protocols. Prior to initiating SCRO approved research, the PI is to ensure that the research team members are appropriately trained in the techniques required to ensure safety and in dealing with incidents that may cause harm (i.e. proper use of PPE, SOPs, etc.).

Trainings for All Study Team Members: CITI Initial Biosafety Training, Stem Cell Research, OSHA BBP **(required)**; CITI OSHA PPE **(recommended)**; EH&S Lab Safety Training **(required annually)**
