

Letter to FIWARE Lab Community Users (after open call results February 2016)

Dear FIWARE Lab Community User,
FIWARE is in a process of reorganization in order to reinforce the offering to its users. In this process, as you might know, some of the FIWARE Lab nodes will discontinue their service provisioning by the end of February.
Such nodes are:

- Gent
- Karlskrona
- PiraeusN

If you are a **Community User** hosted in any of these nodes and you wish to continue using FIWARE Lab, please fill in the survey in the following link:

<http://goo.gl/forms/pqOkEeH6Ur> within February 22nd at 08:00 AM.

Among other things in the survey you have to indicate the new node where you'd like to continue to use FIWARE Lab.

Your current node, will contact you in the coming days and in collaboration with the new selected node, will follow up with you to support you in the migration according to your needs.

It is our intention to keep your effort at a very minimum in this migration process.

Apologizing for any inconvenience this may cause you.

Best regards,

The FIWARE Lab Team.
