| Puget Sound Energy Hearing on Current 20 Year Plan | Friday, February 26th Time | Help tell PSE that gas has got to go--we need true renewables! | |
| Interim Regs Action | Multiple days, Feb-Apr | The City of Tacoma views fossil fuel expansion as "non-significant" and refuses to place limits on it. Help us convince them otherwise! This action will involve a bit of street theater and some large props, executed in different parts of town on different days to spread the word. | dan@350tacoma.org |

Ongoing Actions to Take from Home

- Write a letter to a local elected or to a newspaper. We're educating both our leaders and the public that PSE is a bad actor. [Writing guide here!](#)
- Post on any social media platform about what PSE is up to. We're hoping to do monthly storm days where posts will be most important (see calendar) but regular posting throughout the month is great too! [Social media guide here!](#)

- Plan a screening of Native Daily Network's film 'Ancestral Waters' in your community. It chronicles the Puyallup Tribe's fight against Tacoma LNG. We're encouraging folks to do this with their household or on an online platform. [More information on how to show the film in this toolkit!](#)
- Tell Puget Sound Energy to stop spreading glossy lies! Click here to [send emails to PSE executives urging them to leave Partnership for Energy Progress](#), an industry front group spreading propaganda about "natural" gas, that has gone so far as to target children with coloring pages and online games.
- Is it time to break up with Puget Sound Energy? [Take this quiz to find out if you're in a toxic relationship with your energy utility!](#) Everyone that participates in the quiz by the end of February will be entered into a drawing for some sweet treats from Power Past Fracked Gas.
