

The first page should contain a short and concise title (8-16 words, Malgun Gothic Semilight, 18), Abbreviations should be avoided

Author 1, Author 2, Author 3*, Author 4 (Perpetua-12)

¹ *Department....., University....., City, Country*

² *Department....., University....., City, Country*

Correspondence: *Department....., University....., City, Country*

ABSTRACT

A concise and factual unstructured abstract is required (150- 250 words). The abstract should state briefly the purpose of the research, the principal results, and major conclusions. (Perpetua-10)

Keywords: 4-6 keywords relevant to the article should be listed below the abstract. Separate the keywords with comma. (Perpetua-10)

Introduction

State the objectives of the work and provide an adequate background, avoiding a detailed literature survey or a summary of the results. (Perpetua-10)

Materials and Methods

All the other headers (Italic, Perpetua, 12)

Provide sufficient detail to allow the work to be reproduced. Methods already published should be indicated by a reference: only relevant modifications should be described. (Times New Roman- 8.5) Number all the equations and mention them in the text as follows:

$$\omega_p = \sqrt{\frac{Ne^2}{\epsilon_0 m^*}} \quad (1)$$

Results and Discussion

Results should be clear and concise. This should explore the significance of the results of the work, not repeat them. A combined Results and Discussion section is often appropriate. Avoid extensive citations and discussion of published literature. (Perpetua- 10)

Ensure that all figures have a caption. Supply captions separately, not attached to the figure. Please make sure that figure files are in TIFF or JPEG format (300 dpi).

Mention all the tables and figures in the text as follows:

(Table 1), (Figure 1)

Figure 1. (Perpetua-9)

Table 1. Please submit tables as editable text and not as images. Number tables consecutively following their appearance in the text and place any table notes below the table body. (Perpetua-9)

	First	Second	Third	Forth
Level3	2	2	1	1
Level2	1	3	0	2
Level 3	0	0	4	6

Conclusion

The main conclusions of the study may be presented in a short conclusions section, which may stand alone or form a subsection of a Discussion or Results and Discussion section. (Perpetua-9)

Acknowledgments: None. Contributions from anyone who does not meet the criteria for authorship should be listed, with permission from the contributor, in an Acknowledgments section.

Conflict of interest: None. Any interest, financial relationship, personal relationship, religious or political beliefs that might influence the objectivity of the author can be considered as a potential source of conflict of interest. All manuscripts submitted to the journal must include a conflict of the interest disclosure statement or a declaration by the authors that they do not have any conflicts of interest to declare.

Financial support: None. Please describe the sources of funding, relevant grant numbers, and the URL of any funder's website that have supported the research. Also, please describe the role of any sponsors or funders. If there is no funder please write N.A (Not applicable) in the financial support section.

Ethics statement: None. Studies involving humans and animals must have been performed with the approval of an appropriate ethics committee and provide the reference number.

References

In the text:

The references should be listed on a separate sheet and should be numbered consecutively in the order in which they are cited in the text. Cite in the text by the appropriate Arabic number e.g. 1, 2, 3, and the numbers should be in the brackets. e.g [1], [1,3], [5-8], [5,6,12]
