Privacy Policy

We have developed a free application with ads. This SERVICE is provided by KytsuMaksym at no cost and is intended for use as is. This application is in the public domain and is intended for use by any user.
This page is used to inform visitors about our policies regarding the collection, use and disclosure of personal information.

You agree to the transfer of personal data to the services and SDKs that are built into our application, as well as the processing of files and access to the file system of your device. The personal data we collect will be used to provide and improve the application. We will not use your data or share it with third parties except as described in this privacy policy.

The terms used in this Privacy Policy have the same meaning as our terms available on the app, unless otherwise specified in this Privacy Policy.

Collection and use of information

The application uses third party services that may collect information used to identify you. Links to the privacy policy of the third party service providers used by the application:

- Google Play Services https://www.google.com/policies/privacy/
- Admob https://support.google.com/admob/answer/6128543?hl=en
- Unity https://unity3d.com/ru/legal/privacy-policy
- Appmetrica https://yandex.ru/legal/confidential/

Data

Please note that every time you use our app, in the event that an error occurs in the app, we transfer data and information to the Appmetrica service (through third party products) on your phone. This data may include information such as your device's IP address, device name, operating system version, application configuration when using our Service, the time and date of use of the Service, and other statistical data as specified in the AppMetrica service's privacy policy.

Data is collected and transmitted automatically

Collecting Android Advertising IDs is optional. The Ad ID can be reset or removed by users using the Ad ID commands in the Android settings menu.

Certain other features of the Google Mobile Ads SDK, such as the prohibited advertising feature, may also prevent the transmission of advertising identifiers and other data.

Data processing

The Google Mobile Ads SDK automatically collects and transmits types of data for advertising, analysis, and fraud prevention.

Personal and sensitive user data.

This application securely handles everything personal and confidential data of users, including their transmission using modern cryptography (for example, via the HTTPS protocol).

To access the data itself, the application requests access to this data from users (in exceptional cases, it does this without a request, indicating this in the policy of the application itself).

Files and Documents.

We collect information about your data on the device that is associated with Minecraft. All data is stored temporarily. Users cannot prevent the collection of this data, as it is necessary for the application to function properly. For example, we can see if you have Minecraft installed or not.

Location.

We do not collect data about your exact location, for app collection statistics we collect approximate location by your country and/or region of location.

In-app activity history.

For the best app experience and your experience, we get access to track your activities in our app, as well as collect data from your phone about the apps installed on it that are related to Minecraft.

App information and usage data.

We do not provide users' personal information to third parties. We are concerned about the complete safety of our users. We collect Error Log Data and Analytics. For the correct operation of the application, we track errors and crashes in order to improve the performance of our products.

Service providers

We may employ third party companies and individuals for the following reasons:

- to facilitate the operation of our application;
- To provide an application on our behalf;
- To provide services related to the application; or
- To help us analyze how our application is being used.

We want to inform app users that third parties have access to your Personal Information.

The reason is to carry out the tasks assigned to them on our behalf. However, they are required not to disclose or use the information for any other purpose as specified in their policies.

Device IDs.

We collect data about user interaction with the application and about its productivity for analytics and advertising.

Children's privacy

Our application is not intended for persons under the age of 13. Our application can be used by children under the age of 13 with the consent of their parents. We do not collect personal information from children under the age of 13. In case of erroneous collection of data from such users, they are instantly deleted from all servers (including those where the data is transferred). If you are a parent or guardian and you are aware that your child has provided us with personal information, please contact us via email on our application page so that we can take the necessary action.

Security

We value your trust in providing us with your personal information, so we strive to use commercially acceptable means of protecting it. But remember that no method of transmission over the Internet or method of electronic storage is 100% secure and reliable. We cannot guarantee its absolute safety.

Links to other sites

Our application may contain links to other websites. Please note that these external sites are not operated by us (for example, they may be advertisements). Therefore, we strongly recommend that you read the Privacy Policy of these websites. We do not control and are not responsible for the content, privacy practices or practices of any third party sites or services.

Copyright protection

The word Minecraft (whose product we use for distribution and use by other players) is not copyrighted and is in the public domain
https://www.microsoft.com/en-us/servicesagreement

All modifications for applications and games are installed separately in our application at the request of the user who downloaded it. We are ready to remove the modification placed in our application at the request of its developer in case of providing evidence of involvement in the development. The collected modifications are free and were taken from public free Internet resources without indicating anyone's copyright.

Changes to this Privacy Policy

We may update our Privacy Policy from time to time. As such, you are encouraged to review this page periodically for changes. We will notify you of any changes by posting the new Privacy Policy on this page.
