

Watkins 240v requirements for full installation of
Convertible Spa, (Jetsetter, Beam, Pace, Stride,
SX, TX)

GFCI Disconnect
Must be 5' away from spa

Examples of common locally available conduit.

Enter the spa with 3/4" size.

Leave enough "whip" to reach the spa controls, *extra is easy to cut, too little is just wrong.*

Always use proper fittings, and leave one 3/4" fitting at the end of the whip.
