

# DISNEY DREAMLIGHT VALLEY CLOTHING & FURNITURE CATALOG

By Akkiarn

**\*\*Warning\*\* Heavily imaged doc. May contain spoilers of the game. View at your own risk. Not a mobile friendly doc.**

Hey guys. Thank you for stopping by and viewing this doc. I wanted to make this doc to catalog every clothing / furniture that is available in the game and not by the datamines. Datamines are not set in stone and may or may not come into the game. So this is a **CONFIRMED list of what is currently obtainable in the game and it is updated as I find new items.** In any case please enjoy.

## Have an item I don't?

Feel free to reach out with a screenshot of the game item.

## **SCROOGE'S STORE**

Let's make this short and simple. Scrooge's store can be obtained when you do Scrooge's quest. The store can be upgraded three times and it sells clothing and furniture.

Here are some things I noticed when buying from scrooge's store:

Scrooge's store is updated once a day. This update happened around 4am (EST) or 1am (PST) or whatever is equivalent to your timezone.

If you buy all the clothes from scrooge's store daily you will not get any duplicate clothing and you will get more clothing options overtime than just skipping a piece of clothing you don't want and having it show up the next day. Please do not confused recolors as "duplicates"

When you buy all the Dresses / Suits in the display windows of the store the front (outside) of the store will no longer continue to display clothing. As you buy more clothing and let say you have bought all the accessories the store will no longer display accessories. Etc etc. So when you buy out all the clothing the store just stops displaying them.

Furniture on the other hand doesn't follow the clothing aspect of the game. Just because you bought the mermaid lamp doesn't mean you won't see the mermaid lamp again. Some furniture are more common than others and I assume that there in a RNG ratio of example:

9 times out 10 you will see for example a mermaid lamp or a trunk fireplace or the Cinderella Mannequin vs 1/10 chance of finding a "rare" piece of furniture like stepping stones, or Lion King's watering hole, or a Mickey Mouse armchair. Yes, it's a bit frustrating but hopefully the developers will fix the ratio.

Another issue is that there are some pieces of furniture that look the same such as cabinets. DO NOT BE FOOLED BY THE CABINETS! There is Black, White, Red, and Blue colored cabinets. BUT they can be single door, single door with more frame, double door, double door with more frame, left handle, right handle, concrete top, white marble top, black marble top, corners with single and double doors, glass, double drawers, triple drawers, and islands. THE DEVS WENT INSANE. My suggestion: you see it, you buy it. Especially when there are some items that are wrongly textured and mislabeled.

## **ERIC'S BLUEPRINTS**

# CLOTHING

The clothing viewed here is what you get from Scrooge's store, friend quests, events, and from the founders pack. Please note that some clothing may not be available to all for example the founder's pack clothing or any events long since past. Please enjoy!

Black Snow Gloves are glitched and not obtainable in the game. You can however bring them over from the ADT - Avatar Design Tool - and import the black gloves.

THE ADT IS BROKEN ON STEAM IF YOU BOUGHT THE GAME FROM STEAM. Head to epic store launcher and get ADT from there.

I am also aware that there are other clothing items in ADT not on the collection list. But the game doesn't count them so they are currently not added.

# Furniture

**\*\*Furniture is subject to change.\*\*** Any screenshot here may be new or old as the game ages. Some furniture has texture issues or mislabeling and it won't change until the devs update the game. Some furniture may be currently unavailable to other players or glitched from a quest. Hypothetically some furniture may not be obtainable until the game adds new characters.

Wallpaper, Flooring and Crafting furniture do not count as part of "furniture" in collections and will have their own separate sections. Some furniture are part of the founders pack or events long gone and may or may not be obtainable in the future.

All display prices are not set in stone and can be found to correspond with scrooge's in-game catalog. Any price changes (if any) in the future may or may not be updated. Please enjoy this visual guide and may the odds forever be in your favor as scrooge can be very stingy when sharing "new" furniture you haven't seen yet. Price can be found in a brief little description under each screenshot.
