Hello,

I'm reaching out from the [USA Science & Engineering Festival](#). We are bringing our popular X-STEM conference for 6th through 12th graders to the Phoenix area and would like to invite students from your school to attend.

We have a limited number of bus grants available from our sponsors to help with transportation needs for the day of the event. If a bus grant is needed in order for your students to attend X-STEM Phoenix, please fill out this [bus fund application](#). We will inform you as soon as possible with the outcome of your grant request.

Watch this [video](#) to see what X-STEM is all about. Check out scenes from our recent X-STEM in San Diego [here](#).

When: Thursday December 8, 2022, 9:30AM-2:15PM

Where: Mesa Convention Center, Mesa AZ

Who Should Attend: Middle & High School Students (grades 6-12)

How to Attend: Advance Registration is Required - there is NO COST to attend.

[Register and Learn More HERE](#) .

Parking for school buses is FREE.

X-STEM is a FREE conference for middle and high school students featuring inspiring presentations and hands-on workshops from an exclusive and diverse group of STEM role models. X-STEM has been an annual event held in Washington, DC since 2014, and we are pleased to bring this educational opportunity to students in Phoenix thanks to our community partners West Pharma and the U.S. Space Force, along with workshop presenter the U.S. Air Force.

Please feel free to reach out to me directly with any questions.

Sincerely,

--

Giulia Delmore
