

Exercise 4

Design a Greeting card. Use different layers for image and text.

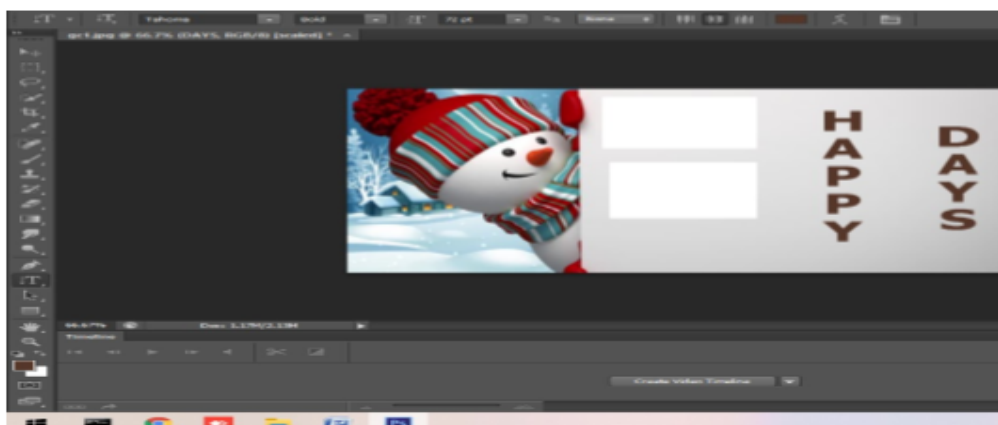

Step 1: Choose File>Open and Open your image in Adobe Photoshop software.

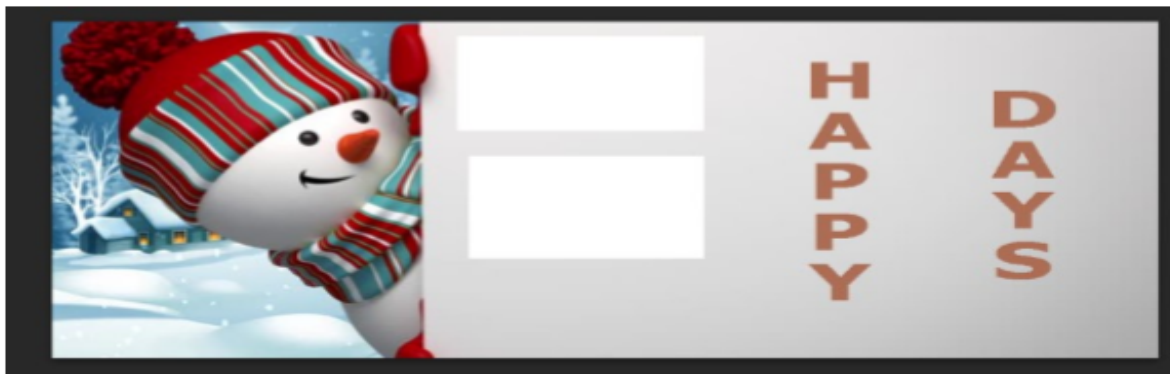

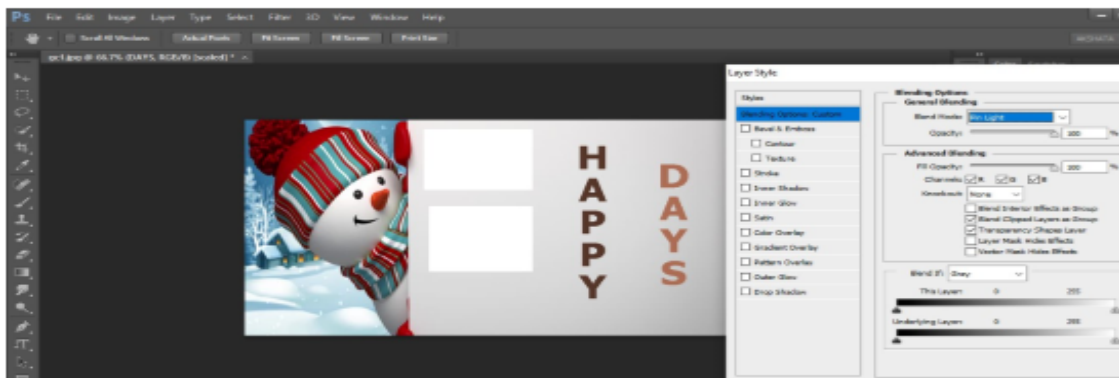

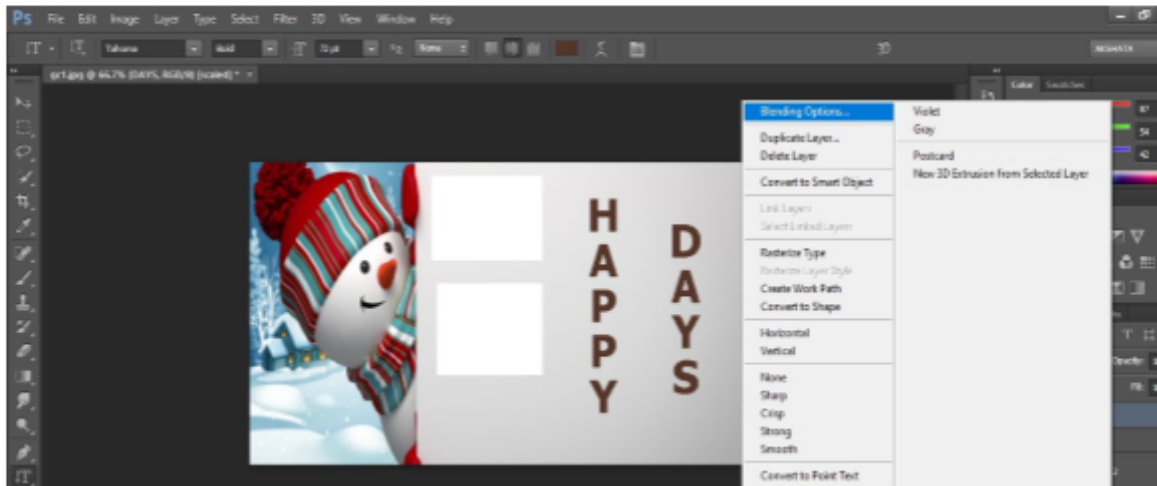

Step 2: Consider the Layout. Here In this graphic below the Rectangle Tool is used to draw two blocks into which we will place colours when the card is complete. Two layers are created Along with Background layer (gc).

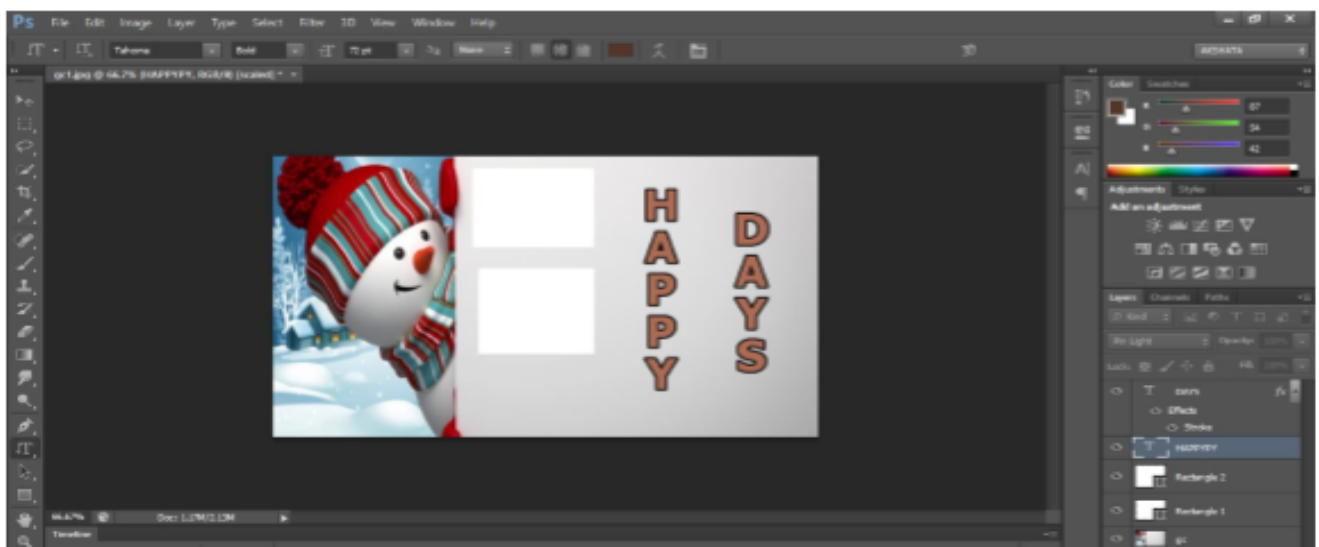

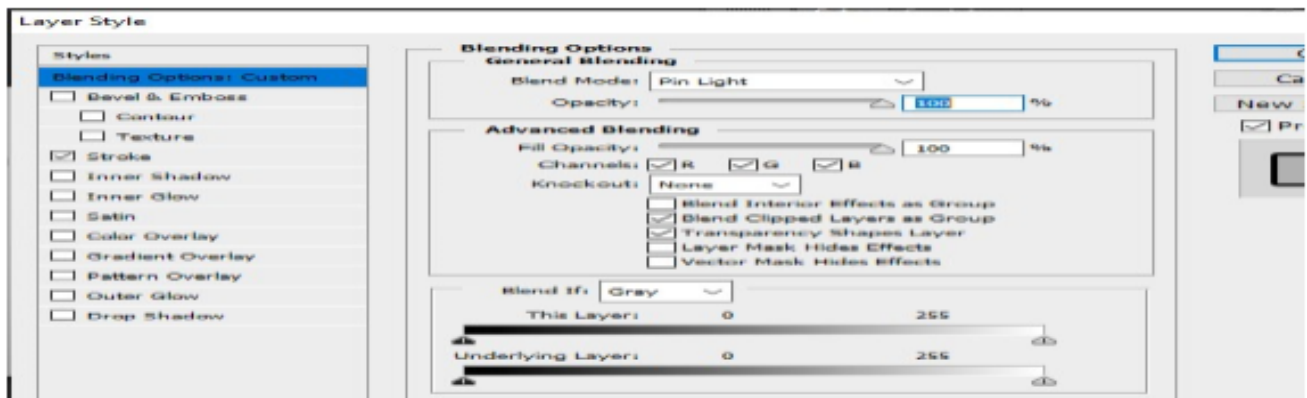

Step 3: Choose Vertical Type Tool from Tool panel and place it over greeting card. WriteHAPPY BIRTHADAY vertically on card.

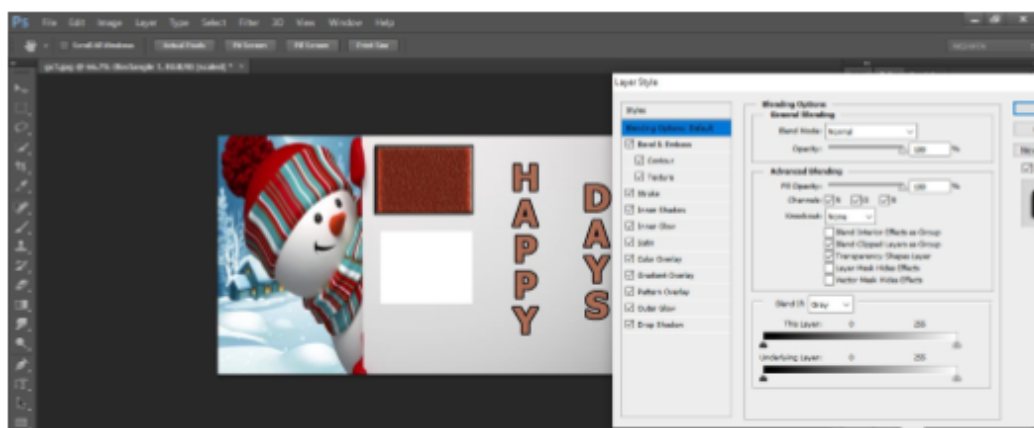

Step 4: Style your Texts. Make right click on color box layer and select blending options. You can choose Pin Light blending mode for both text. Apply Stroke to both texts.

Step 5: Once there, you will see different options on left, you can choose any options. For this Exercise Stroke option is chosen for both texts.

Step 6: Style your Color Boxes. Make right click on color box layer and select blendingoptions. Once there, you will see different options on left, you can choose any options.

Step 7: Write wishes at down side of card. Choose Text Horizontal Type tool from tool panel and place it on card. Apply Modes to your Text.
