

Schoology and Virtual Learning Guidelines, 2020-2021

Dear SJPS Parents and Students:

- Instructional lessons will be posted by 8:30 am the following instructional day for virtual learners and/or per parent request (*Lessons will be posted from the request date forward since past lessons may not be available*) Early Childhood and lower elementary grade levels use Schoology as well, however, families who are learning remotely have received/will receive detailed information from the classroom teacher.
- The videos posted are usually the instructional portion of a live lesson that has been recorded. They have been limited to no more than 20 minutes in length. Some lessons will be recorded separately outside of the live lesson. This is at the discretion of the classroom teacher.
- The lessons posted mirror the daily lessons that have taken place in the classroom. Each lesson will include a “check for student understanding” activity or assignment that should be submitted by the student.
- Students will:
 - Log into Schoology
 - Attend Live classroom sessions/check in with teacher
 - Watch the recorded video lesson(s) and/or work on the corresponding assignments/ learning activities
 - Complete the assignment/learning activity/ by the due date.
- Teachers will:
 - Provide feedback within 3 school days of assignment/work submission. Feedback can be in the form of Schoology comments, a family message via email, etc.
 - Update/post to Power School once a week.
 - Reply to emails/voicemail from parents and students within 24 hours.
