

SlideRobo Bonus #1 Soci Video Gamer

Description - The brandable HTML5 Social Video Puzzle is an interactive YouTube video puzzle game with social network share. It splits the video into several pieces, shuffles them and the user has to put them back into the correct order to claim your special offer. This script can be used for creating a buffer page for social media marketing or engaging landing page to convert visitors. Truly the easiest and most effective way to increase engagement and conversions!

How it works in 3 Simple Steps-

STEP 1. Enter video ID and promotion details then upload to server Just enter any public YouTube video ID and promotion details (logo, headline, caption and link to special offer e.g. coupon, discount or download) then transfer all files to your server.

STEP 2. Visitors play the video puzzle When a visit the page, the script checks if the videos files exists (videoID.webm / videoID.mp4), if it does, the user can click to play the video puzzle immediately, If the file does not exist, it automatically downloads the video files from YouTube (with progress bar).

STEP 3. They claim your offer If the user successfully completes the puzzle then can play again to beat there previous time or visit your link to claim your offer.
