Prizes

The winning coach will be rewarded with nothing but slaps on the back and bragging rights. However, should you choose to participate in the Season 16 of the local BriBBe elevens league (Beginning in February 2027) all participating coaches will have the opportunity to draft one player from their sevens team for use in the season using the following rules!

We want you for a new recruit!

As per the Sevens rules after each match a player on your team will gain a new randomly selected Primary or Secondary skill. After that they are in with a chance of being ‘drafted’.

Any player that is ‘drafted’ or finishes the day alive(Including MNG) and in receipt of an additional skill, may be recruited into your league team for the BriBBe league season 15! Using the following rules:

- Only players that have received a single additional skill during the event are eligible for recruitment.
- A maximum of one player may be recruited by any one coach.
- Players cannot be transferred between coaches.
- The Season 15 team must match the team played at Bootcamp (e.g. A player from a bootcamp Skaven team can only be recruited into a league Skaven team, not into an Underworld Denizens team).
- The player will be drafted at the increased value of the skills they have accrued. There will be no additional charge for playing in a previous season.

We look forward to seeing you on the gridiron!
