

♡♦ Hiya! ♦♡

Welcome to my newest MAP call!

Please read EVERYTHING before considering or applying for this project as all of the rules and art guide are important in order for the project to be successful! Also PLEASE make sure that you're at least somewhat active on discord so it's easy for me to contact you! That's right, discord IS required.

RULES:

☆ *Inspiration: "We've all found ourselves in bad relationships... not necessarily a romantic one... maybe with a family member or a friend. Just a relationship that you know, on some level, is going to keep hurting you. But we keep letting that person back in over and over again. Maybe you hope it'll change with time, or maybe it's easier to just not be confrontational. Maybe you think you deserve to*

be unhappy, or maybe you find some comfort in the chaos. This is what this song is about. Being addicted to something self-destructive. Sometimes we search for that chaos."

♡ There is a bit of a theme to this MAP! The MAP itself is about overcoming, dealing with, or being dragged into toxicity. Or really, anything along the lines of toxicity. Although, you do not have to follow the TOXIC character palette, in case you don't want to follow this theme! (It works either way!) But the "normal" character palette and background palettes MUST be followed! More about that in the Art Guide after the rules!

☆ Vents are allowed for this MAP! As long as it doesn't contain anything super graphic! (You may vent about your personal experience with toxicity, if you're comfortable and if you want to of course, again, as long as it isn't graphic!) Blood IS allowed but nothing too gory, blood will be black.

♡ You MUST have a discord and be on my MAP server! Every MAP that I'm hosting and the information for them will be there! From there on out is where you will show me your work and progress!

<https://discord.gg/9wGKxy9s9V>

☆ This is a PMV MAP! You MAY use some AMV/frame by frame animation though, especially for quickly changing expressions! Feel free to use it if you

wish, but it should be at least mostly PMV! Heres some examples of what could be expected of you:

https://m.youtube.com/watch?v=_ _VhJmrVhw

<https://m.youtube.com/watch?v=RYxXeMftfJk>

<https://m.youtube.com/watch?v=p4ohuZwQU6c>

<https://m.youtube.com/watch?v=vdheq1YHA10>

♡ Some experience required! Don't be afraid to apply! Collabs are also welcome, which I'm open to!

☆ If you have any questions about that ask me in the discord lol

♡ Headcanons & AUs are allowed WITH NOTICE! The headcanon MUST be appropriate!! Nothing that is or seems predatory!!

☆ DON'T use characters that represent real people. Dream SMP is okay for this one, but if you plan to use the toxicity theme, PLEASE stick to canon with it.

♡ Nothing illegal or uncomfortable!!

☆ You MUST include lyrics for your part! Since this specializes in the PMV style, there is a font you need to use! Make sure the font color is either black or

white! (Depending on your choice of background and such!) If you want to intensify or put emphasis on a word, you may use this color: #ff266e (HEX)

♡ Here is the font you must use below, if you cannot download and use the font for whatever reason, ping me in discord and ask me to do it for you, I'll send you a transparent png of your lyrics. You can cut them up as you please. Remember,

ALL lyrics must either be white or black! Any size!

<https://www.fontspace.com/youth-touch-font-f30771>

☆ Catified and animalified versions of your fandoms ARE welcome!!! But if you use someone else's designs you have to have PERMISSION from the designer and NOTIFY ME! Free to use designs are obviously welcome!

♡ All of these parts are relatively short! Some are a bit longer than others, so the max parts are 3! (Intros doesn't count! I will take them if nobody wants to deal with all the editing! BUT, you MAY do the art in the background and we can collab!)

☆ FANDOMS CAN BE USED MORE THAN ONCE! It is preferred they are about different characters though! But I'm not gonna keep track of this one since it doesn't really matter lol.

♡ There IS a fandom blacklist below!

☆ OCs are welcome!

♡ DO NOT HAVE STILL IMAGES. Movement is required no matter the form! You MAY have a couple still frames, but do NOT let your part be mostly still please!

☆ I have cut your part audios separately for you!! The audio may be a bit weird in the MAP call, but it's because the audio is all separate lol. The audios I cut for you should be fine and if not I can fix it all when it's finished during editing! Your part audios are cut for you here:

https://drive.google.com/drive/folders/1v7U5Sat3fbfllnlnRO_skheReAlFsuWO?usp=sharing

♡ NO WATERMARKS ON THE FILE YOU SEND ME. I'll put your user in the bottom right corner! DO NOT ADD TIME ONTO THE VID YOU SEND EITHER, although you may add cut-offs and/or outros if you post it on YouTube! <3

☆ When you ask for part(s), please put down more than one! The more you suggest, the more likely you will get a part or however many you want! Fill out this google form to apply, and COMMENT on the MAP call that you applied! If I heart your comment, that ONLY means that I see it, I will respond to you if you get in! :) Form: <https://forms.gle/nkUbMHK5pntJoAbu5>

♡ And finally, you must be able to send your finished part in either google drive or sendspace!

☆ Have questions? Ask me in the comments or on the discord!!

BLACKLIST FANDOMS:

(No hate on these fandoms if you like them!)

-Hazbin Hotel/Helluva Boss

-Country humans

-Eddsworld

-Poppy Playtime

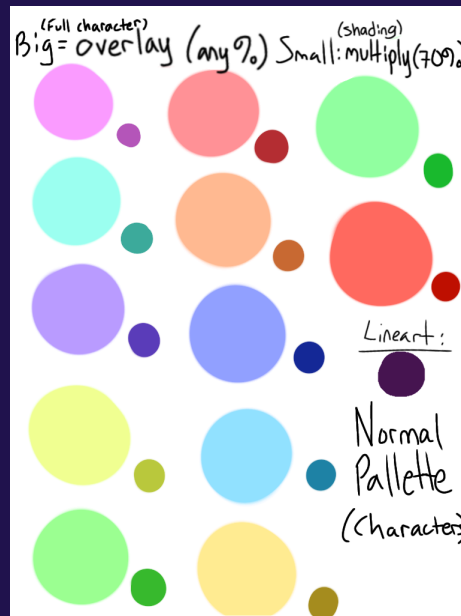

-If you're uncertain if I'll accept the fandom you want, just ask me! I don't bite! <3

-If you've read all the rules and the blacklist, here's your FIRST cOdewOrd! Your cOdewOrd is actually a cOde-sentence. And it's... you telling me why you chose that fandom and/or characters! :)

Palette / Art Guide:

♡ Every character MUST follow this palette, the bigger circle of color must be over the WHOLE character, and follow the shading and layer directions! MAKE SURE TO USE THE SAME COLORS OF OVERLAY AND MULTIPLY THAT GO WITH EACH OTHER! If you have questions about this, don't be afraid to ask me on

discord or something! (Note: Multiply layer/shading layer goes ON TOP of the overlay layer!!)

☆ If you are going with the toxicity theme, then you MUST use this guide for the toxic character and ONLY the toxic character(s)!

♥ As established in the images, the overlay layer, the one over the full character, can be used at any % opacity! The shading must ALWAYS be on multiply layer with 70% though! (You may adjust this a little if your overlay layer is very light.)
ALSO, don't forget to follow the lineart colors for BOTH of those images!!!

☆ For the toxic character(s), there is a mark on the sheet under "floating marks". There are a couple and up to several of those around the toxic character depending on their toxicity level, anger, frustration, and or intensity! In other words, the more intense and aggressive the toxic character gets throughout the part, the more of those floating lightning-like marks will be around the character!

♥ Characters ARE allowed to change their overlay colors, rather it be "normal to normal", "normal to toxic", "toxic to normal", or "toxic to toxic". Those transitions are allowed to be frame by frame if you do so please!

☆ Follow the background palette photo below! (You may adjust these colors a little! Black and white is ALSO okay for backgrounds I just forgot to add em!)

♥ Second c0dew0rd is what your favorite color is!

☆ You may add highlights however you want if you wish to add highlights :)

Additional Note:

♡ I will draw your sonas in the outro for this MAP! But only if you're comfortable with that! If not, you can draw your sona sprite for yourself, or if you don't want your sona in it, then I will leave it blank for ya! ^^ We will vote on if we will use the overlay and multiply art guide to apply to our sona sprites later on. :)

☆ Please don't give me a sona with like 20 different colors and extremely complex designs! You may also put multiple in the sona channel in case you're not sure which one will be easier for me to do for you! I don't mind complex sonas, I just don't want the chore of making a full fledged barfing rainbow character—💀

♡ Also! I can't draw humans. So if you only have a human sona, you can either draw them and I'll credit you or we can leave your space blank-😅

☆ You CAN do green screen but it is NOT preferred. (Not an expert at editing that yet but its possible!)
