Omaha Metro-Area Tornado Relief // Community Resources

We're thrilled to have such an amazing group of individuals committed to making a positive impact! We have set up the database spreadsheet so it is view-only and so it will sort by category automatically on each tab. Our goal was to create a real-time, public-driven, centralized database that is easily accessible by those who need it. We will do our best to stay on top of the data as it comes in to keep it up to date and concise.
