

Aoki Harris' Terms of Service (ToS)

Please remember that I have a right to decline any commission!

(That probably won't happen without good reason, though!)

General

*This ToS is for SFW and NSFW commissions. Please keep in mind that you **must** be 18 or older to commission me!*

The Artist

- I am currently only accepting PayPal (and tips through Ko-Fi)
- I am allowed to use your commission in my art portfolio.
- I am allowed to post your commission to my social media with a social media credit to you, unless you express you do not wish to have your name or art posted (as well as any additional social medias I get in the future). This version of the commission will have a large watermark to discourage theft. It may also be run through an anti-AI program.
- I will have a small signature on your version of the commission- and you can choose where to put it (within reason, it cannot be in any of the corners and must be close to the artwork itself)!
- I specialize in drawing human and furry characters but am comfortable branching out!
- I am *not* good at drawing mecha(nical) or architecture without *many* references and lots of time.

The Buyer

- You should also read through my [Commission Price Sheet](#)!
- Don't be afraid to talk the artist through an idea. It's what they are here for and what you are paying them for! No worries!
- You may not use any commission from me in a commercial way without explicit written, text, or verbal consent. This includes but is not limited to:
 - Selling prints
 - Using the artwork in a game, book, or movie
 - Explicitly advertising the commissioned art
- You may, however, print the commission for *yourself*.
- Please *discuss* references with the artist! (Do not send any explicit references without permission)
- Please credit me by my BlueSky, DeviantArt handle, and/or Carrd whenever you post your commissioned art! Please also use a watermarked version of the art when posting publicly if possible.

How to Get Banned from Commissioning Me

You are not allowed to do the following with anything you commission from me, under any circumstances:

- ★ use it to train or guide a generative AI program in ANY way,
- ★ use it as a Non-Fungible Token (NFT) in ANY way,
- ★ remove any signatures or watermarks,
- ★ edit without explicit written, text, or verbal consent from the original commission artist

Maximum Wait Times

Times vary depending on complexity and detail of individual commissions. Commission types are listed in order from maximum to minimum wait time.

Commission Wait Time Chart	
2D Concept Art	Depends heavily on workload. Ask! :3c
2D Reference Sheet - 1 angle - 2 angles - 3 angles - 4 angles	Depends on the number of angles! 1 ____ 2-14 days 2 ____ 6-14 days 3 ____ Min 14 days 4 ____ Min 21 days (More angles will take more time.)
2D Illustration	2-14 days
3D Model - Blockout Mesh - Refined Mesh - UV Mapping - Low Detail Texturing - High Detail Texturing - Rigging	Depends on what is ordered! (These are individual times) BM ____ 4-14 days RM ____ 6-28 days UVM ____ 2-7 days LDT ____ 4-14 days HDT ____ 6-28 days R ____ 6-28 days (Rigging can be very finicky!)

Work in Progress (WIP)

Progress updates will be given after each stage of drawing. This allows me to get your approval, making sure I'm on the right track and fixing anything that needs fixing. *You may NOT change a large portion of the sketch (75%-100%, depending on what is being changed), only minor details.* You may ask for additional ones, but please do not ask every day.

Payment

- Please provide your email address that is connected to your PayPal so I may invoice you. If you want to provide a tip, there will be an option through the invoice.
- Please do not try to pay another way.
- Invoices can be paid in segments. The price of a sketch is required before the commission is started. You may cancel your commission before the first payment.
- If you need to cancel after the comm was started and your commission had Add-ons, the Add-ons will not be completed. You will be allowed to have whatever parts of your commission you have already paid for.
- I do not offer refunds. Please be aware of how much you are paying initially.

Commission Timeline

After you read my Terms of Service (almost done!) and my [Price Sheet](#), you will have to fill out my [Commission Submission Form](#). After I receive the form and read it, we can start talking about the commission's details such as cost, estimated completion time, posing, and small details. I will start your commission after receiving payment for the sketch.

This is the first WIP checkpoint!

I will show you the completed, watermarked Concept Sketch. It's at this point you can change adjust some minor details, then I will work on the adjustments. Our conversation ending and my work on adjustments beginning is considered 1 Refining Sketch. You start with 2 free Refining Sketches. Be sure to mention ALL adjustments before I start my work. After using both, you may add more to your commission for an additional price. Work on additional Refining Sketches will start after receiving payment for them.

Next WIP checkpoint!

If you only commissioned a Sketch, then your Commission Timeline ends here! You will receive the commission shortly after approving the sketch!

If your commission includes Add-ons, then your timeline continues after you approve the current WIP. There are additional WIP checkpoints after Line Art, Color (including Monochrome), and Shading. Work on all Add-ons begins after I receive payment for them.

Once your commission is finished, you will receive the high res, signed version. Then, I will post my watermarked version (if applicable).
