First Year VoTech Students:

You will sign up for VoTech on your scheduling selection form as VOTECH. This will act as a placeholder until you are enrolled in a VoTech program through their school.

Be sure to check the box on your course selection sheet that you are signing up for VoTech and have registered on the online form.

Please complete your registration through the Butler County Vocational Technical School by using the QR code below or accessing it through the scheduling website. This is where you will select the program(s) you are interested in taking at the VoTech.

You will not be enrolled in VoTech unless you have completed the form!
