Ideas:

- Photo Collage

Plan to combine a photo of myself with this blank album photos, add text on the background and fill with epoxy

Ideas

Create a stock on the CNC machine, possibly with indents or extrusions.

Laser cut acrylic part for foreground

Print stickers to attach

Fill stock with epoxy

Attach with standoffs

TO DO

Illustrator

- ☒ ~~Paste images~~
- ☒ ~~Image trace~~
- ☒ ~~Combine images~~
- ☒ ~~Add any flair that I want~~
- ☒ ~~Seperate Background from foreground~~
- ☒ ~~Bring both into fusion separately~~

V-carve

Stock

- ☒ ~~Extrude what needs to be extruded by an appropriate distance~~

- ☒ Create toolpaths for the things that are going to protrude into the stock
- ☒ Make sure v-bit does not go through stock
- ☒ Check over all of that and make sure its good.

Artwork

- ☒ Create toolpaths to cut out
- ☒ Check over

Physical

- ☒ Spray Paint stock red
- ☒ Sand all wood thoroughly.

CNC

- ☒ Do the usual checks on the CNC
- ☒ Make sure the job im running first is the one that I want to be
- ☒ Run Job

Post

- ☒ Fill text on stock with White and Yellow Epoxy depending on what is needed
- ☒ Print sticker for part
- ☒ Attach Sticker
- ☒ Add standoffs to stock
- ☒ Clear coat stock
- ☒ Attach part with Weld-on
- ☐
